

## ASX RELEASE

13 June 2012

### AGBAOU GOLD PROJECT

Lycopodium is pleased to announce selection by Agbaou Gold Operations, a subsidiary of Endeavour Mining Corporation, for the provision of engineering, procurement, project and construction management (EPCM) services in relation to the Agbaou Gold Project processing plant and certain other facilities.

We are extremely pleased to be selected for a second project from Endeavour Mining Corporation, following the successful completion and handover of the Nzema Gold Project in Ghana in January 2011. The Agbaou Gold Project represents our first greenfield project in Cote D'Ivoire. Further details in relation to the Agbaou Gold Project were released by Endeavour Mining Corporation on 11 June 2012.

Lycopodium is pleased to continue our association with Endeavour Mining Corporation and wish to extend our thanks for this opportunity.
