Directors' Report

The Directors present their Annual Report to the members, together with the audited Consolidated Financial Statements of Lycopodium Limited (the 'Company' or 'parent entity') and its subsidiaries (the 'consolidated entity'), for the financial year ended 30 June 2026 and the Statement of Financial Position of the consolidated entity as at 30 June 2026.

Directors

The following persons were Directors of Lycopodium Limited during the financial year and up to the date of this report:

- Rodney Lloyd Leonard
- Peter De Leo
- Bruno Ruggiero
- Karl Anthony Cicanese
- Michael John Caratti
- Louise Bower
- Robert Radici

Principal Activities

The principal activities of the consolidated entity during the financial year consisted of the provision of engineering and project delivery services in the resources, industrial processes and rail infrastructure industries. There were no significant changes in the nature of the consolidated entity's principal activities during the financial year.

Dividends

Dividends paid to members during the financial year were as follows:

	2026 \$000's	2025 \$000's
Final dividend for the year ended 30 June 2025 of 25.0 cents (2024: 40.0 cents) per fully paid share paid on 3 October 2025 (2024: 6 October 2024) Fully franked based on tax paid at 30% (2024: 30%)	9,935	15,896
Interim dividend for the year ended 30 June 2026 of 22.0 cents (2025: 10.0 cents) per fully paid share paid on 2 April 2026 (2025: 3 April 2025) Fully franked based on tax paid at 30% (2025: 30%)	8,743	3,974
	18,678	19,870

In addition to the above dividends, since the end of the financial year the Directors have recommended the payment of a final fully franked dividend of \$14,703,884 (37.0 cents per fully paid share) to be paid on 2 October 2026 out of retained earnings at 30 June 2026 (2025: \$9,935,057). This brings the total dividend declared for the year ended 30 June 2026 to 59.0 cents (2025: 35.0 cents).

Review of Operations

FY26 has been another exciting year for the Company, with an expanded geographic reach and the continued delivery of high-quality studies and projects for our clients globally, across the Resources, Industrial Processes and Rail Infrastructure industries.

Full Year Results

For the financial year ended 30 June 2026, Lycopodium generated revenue of \$377.5 million and net profit after tax of \$40.2 million. The Company's sustained positive financial performance continues to deliver long-term value and confidence in returns for our shareholders. The Directors have resolved to pay a final dividend of 37 cents per share. The total dividend for the year is 59 cents fully franked.

Activities for the Past Year

The past 12 months has seen a refinement of approach to management across our three operational hubs, being APAC, the Americas and Africa. This regional management approach supports our "One Lycopodium" philosophy, enabling us to engage more effectively with clients and access new market opportunities. Importantly, it leverages local expertise and supports structured growth across key markets where significant opportunities are identified, for example, the Americas.

In this regard, we have seen an increase in activity over the past 12 months within our Americas hub, with a number of major projects currently in delivery out of Toronto. Furthermore, the addition of SAXUM, the Argentinian-based business we acquired a majority shareholding in in 2025, has facilitated our ingress into Latin America. Having a physical presence in this region is presenting new opportunities that would not have otherwise been accessible. Our African hub, based in Cape Town, is providing a critical role in supporting

projects in delivery across the continent, enabling us to leverage the local expertise and capability that exists in key locations, including Namibia, amongst others. From an APAC perspective, we are continuing to service clients operating across Africa, and pleasingly, have secured significant work closer to home, providing services for a number of projects being delivered in Western Australia.

In the longer term, we expect to see a more regionally balanced portfolio of studies and projects across our global operations. Focus therefore remains firmly on continuing to grow our capacity and capabilities across our regional centres to support current and forecast work-in-hand.

We set in place a strategy several years ago focused on developing the necessary systems infrastructure required to enable us to operate effectively as a truly global business. This included the introduction of a global HR Information System (HRIS) and the roll out of a broader enterprise resource planning (ERP) tool. During FY26 we have continued to embed these critical systems across the business to maximise the significant operational benefits they deliver, in providing a standardised platform across all operating entities and supporting workplace efficiencies. This has been particularly important in facilitating workshare across our operations to optimise global resource utilisation and provide access to specialist capability that does not exist within a single office, leveraging global knowledge, relationships, and expertise to deliver better project outcomes.

With the fundamental premise that our people are our business, we continue to provide the learning and development support required to enable our staff to grow their career with us. This includes a suite of tailored programs and L&D tools focused on developing both technical and soft skills. The 'Develop' module available within our Culture Amp platform, which was launched in FY25, has been further embedded throughout the past year and provides our people with visible career pathways, mapped with competencies, to enable them to visualise and plan their future with us.

Perth Office, Australia

Outlook

The global economic outlook for FY27 suggests steady but subdued growth, with geopolitical unrest, energy market volatility and trade fragmentation impacting confidence and disrupting global supply chains. Across the resources industry, commodity prices are expected to stabilise after recent declines, with modest increases projected for 2027 as global demand improves.

Demand for critical minerals continues to be driven by the global energy transition, coupled with digital infrastructure development. The requirement for key minerals including copper, lithium, nickel, cobalt and rare earth elements is expected to continue rising as investment in renewable energy technologies, including systems and storage and electric vehicles, accelerates. Sector growth is also being driven by increasing electrification across industries and the expansion of data centres. Projects to meet this rising demand are increasingly being driven out of Latin America, with significant investment in greenfield and brownfield projects across key jurisdictions, including Argentina, Peru, Chile and Brazil.

Demand for gold remains buoyant, underpinned by persistent geopolitical uncertainty and sustained central bank buying. While greenfield project developments are advancing, they are subject to disciplined capital allocation, with macroeconomic conditions, including interest rates and inflationary pressure, influencing development timelines. The current environment is driving investment in existing operations and brownfield expansions to extend mine life. Activity is predominately being driven out of key producing regions where resources are abundant and existing infrastructure and investment conditions support development, including Africa, Canada, South America and Australia.

Global demand for uranium and investment in projects to increase supply following years of underinvestment is being driven by a renewed focus on nuclear energy as a reliable, low-carbon energy source. This environment is supporting brownfield expansions and restarts of previously suspended

mines, many of these in Namibia, in addition to greenfield developments in high-quality jurisdictions, including Canada, which is considered a major growth hub for uranium project development.

Demand for iron ore remains moderate, primarily due to reduced demand from China resulting from its weakened property sector and subdued investment in infrastructure development. However, while China remains central to the market, demand is becoming more diversified geographically, with infrastructure development and industrialisation across emerging markets, including Southeast Asia, India, the Middle East and Africa. In Australia, investment is focused on sustaining existing operations, with incremental expansions and efficiency upgrades, while major brownfield expansion projects are being pursued in Brazil.

Within the Industrial Processes industry, forward opportunities are underpinned by government incentives that support domestic manufacturing and value-added processing, including those associated with the *Future Made in Australia – National Interest Framework*. Investment is expected to be directed towards advanced processing facilities for critical minerals, battery materials, pharmaceuticals and green chemicals, as Australia seeks to move further downstream within global industrial supply chains.

The outlook for rail infrastructure projects in Australia remains strong, supported by sustained government investment and a significant pipeline of major passenger and freight developments. Investment is being driven by population growth, urban transport demand, and the need to improve freight efficiency and supply chain resilience, together with the critical role of rail in supporting the mining sector. Improvements to the Australian Rail Track Corporation’s (ARTC) national rail network are ongoing, with the ARTC undertaking a significant program of work under its Network Investment Program, including new capital investments and accelerated asset replacement. Furthermore, climate change is driving investment in rail infrastructure, both to climate-proof infrastructure from extreme weather events, including heat and flooding, and accelerate the shift to low-emissions transport.

Koné Gold Project, Côte d'Ivoire

Operational Highlights

FY26 was another busy year for the business in project delivery, with a significant portfolio of projects being executed around the world.

HSE

Over the period, we recorded 9 million controlled service hours, compared to 15.7 million in FY25. Our sustained positive safety record is reflective of the commitment of our people across the business to fostering a safe working environment, and the Lost Time Injury Frequency Rate (LTIFR) of zero achieved over the 12-month period is a credit to them all.

The underlying philosophy that all incidents are preventable if the risk is understood and managed is fundamental to our culture and safety in delivery is considered a cornerstone of project success.

Resources

The studies and projects we deliver for our clients span the world, including Africa, Australia, Southeast Asia and North and Central America, and most major commodities, including gold, lithium, diamonds and gems, copper, nickel, battery minerals, mineral sands, uranium, graphite and other rare earths.

During FY26 we saw the successful completion of several major projects, including the Ahafo North Project in Ghana (Newmont), the Chemical Grade Processing Plant #3 Project in Western Australia (Talison Lithium), the Boto Gold Project in Senegal (Managem Group) and the Bomboré Hard Rock (Stage 1) Project in Burkina Faso (Orezone).

Other significant projects ongoing throughout the year include the Yanqul Copper-Gold Project in Oman (Mazoon Mining), the Baomahun Gold Project in Sierra Leone (FG Gold), the Koné Gold Project in Côte d'Ivoire (Montage Gold), the Twin Hills Gold Project in Namibia (Osino Resources), the Blackwater Expansion Project (Phase 1A, EP2 and Phase 3) in Canada (Artemis Gold), the Bomboré Hard Rock (Stage 2) Project in Burkina Faso (Orezone), the Winu Copper-Gold Project in Western Australia (Rio Tinto), and the Nyanzaga Gold Project in Tanzania (Perseus).

Several new projects have been secured over the past few months, including the Tulu Kapi Gold Project in Ethiopia (KEFI Gold and Copper), the Doropo Gold Project in Côte d'Ivoire (Resolute Mining), the Katanning Gold Project Early Works in Western Australia (Ausgold), the Pilgangoora P2000 Expansion Project in Western Australia (PLS Group), and the San Cristóbal Silver Oxide Project in Bolivia (Minera San Cristóbal S.A.), with these projects set to ramp up as we move into FY27.

LPN Dry Mining Services, Lycopodium's joint venture with Piacentini & Son, a specialised earthmoving and mining equipment company based in Western Australia, is providing services to Namdeb Diamond Corporation (Namdeb) in Namibia, with the establishment and operation of a pilot

project involving a modular dry mining facility for the stripping of overburden, under a two-year contract. This strategic work is another example of Lycopodium broadening its service offering into adjacent fields.

Our study pipeline remains strong and continues to lay a solid foundation for future project execution work. The number of quality projects in study phase presents a positive sign for Lycopodium's future project pipeline.

Lycopodium's wholly owned subsidiary, Orway Mineral Consultants (OMC), continues to be a critical technical partner to our Resources business. Considered a global leader in comminution circuit design and optimisation, OMC provides specialist services in flowsheet development, optimisation and process design, as well as supporting our clients to maximise operational performance post project completion. Experts in plant data analysis, OMC is also an integral element of our digital engineering strategy.

Rail Infrastructure

In Rail Infrastructure, we are known for our expertise in the provision of design, engineering, technical advisory and Rail Infrastructure Management (RIM) services for greenfield and brownfield rail projects across Australia, servicing both government and private sector clients.

During FY26, our team worked with the ARTC to undertake feasibility and concept design services for two crossing loop upgrades on the Broken Hill line in New South Wales under the Network Investment Program. In Western Australia, we supported Arc Infrastructure in the delivery of its Agricultural Supply Chain Improvements Project, providing track design services for upgrades between Carnamah and Mingenew.

Modular dry mining unit, Namibia

Pacific National, New South Wales

Innovation

Lycopodium is founded on a strong commitment to innovation and continuous improvement. By continually seeking better and more efficient ways of working, we are providing new ideas and improved outcomes for our clients and enhancing our internal processes.

Innovation at Lycopodium comes in many forms, and our bi-annual Innovation Award offers the opportunity to showcase the outstanding ideas being generated and turned into reality by our people. Our two winning award submissions for FY26 included the development of a Sleeper Condition Assessment Workflow by members of our Rail Infrastructure team and the development of an internal system to manage Engineering & Drafting (E&D) progress across projects, aptly named ‘PodControl’.

The Sleeper Condition Assessment Workflow is a pioneering, image-based infrastructure inspection system that leverages artificial intelligence to automate the detection and quantification of defects in railway sleepers. Developed as a modular pipeline, it transforms raw site imagery into actionable condition data through a series of intelligent processing steps, enabling real-time condition mapping and maintenance planning. This innovation represents a significant leap forward in digital asset management, offering a foundation for smarter infrastructure monitoring across transport, utilities, and public works sectors.

PodControl is a web-based system that provides an accurate, efficient, and standardised approach to managing Engineering & Drafting performance across projects.

It interfaces directly with our enterprise business software platform to incorporate real-time data. PodControl brings significant organisational and operational benefits to Lycopodium, providing a more accurate and timely representation of performance across E&D activities, reducing manual effort, minimising the potential for error, and increasing confidence in forecasting and schedule control. Importantly, given the global nature of our business, PodControl supports workshare execution by enabling budgets and responsibilities to be divided across multiple offices, supporting efficient multi-office execution and strengthening collaboration and our ability to workshare across the Company.

Other notable award submissions put forward by our people over the past 12 months include the further development of our digital capability, creating digital twins to monitor mine performance, improve efficiency and reduce downtime, and the improved design of mineral processing components and functions, including an online metal removal system, a prefabricated, modular steel reclaim vault, a stockpile reclaim feeder chute, a stockpile feed conveyor design, a standard truss design for 45m spans, and a CIL launder installation process to improve efficiency and safety.

Beyond the solutions for our clients and internal improvements our innovative thinking is delivering, the ingenuity of our people is also enabling us to participate in world-leading Research & Development projects that are determining the path forward across a spectrum of new industries and technologies.

Community

We are committed to contributing meaningfully to the communities in which we live and work, with our philanthropic activities administered through the Lycopodium Foundation. In particular, we prioritise endeavours that advance social development and education and have supported a range of fantastic initiatives over the past 12 months.

We continue to build on our long-term partnerships with the Clontarf Foundation and Murlpirrmarra Connection in Australia. Both organisations support the education, self-esteem, life skills and employment prospects of young Aboriginal and Torres Strait Islander people, and we are very pleased to have the opportunity to support the fantastic work they do with thousands of children around the country. In addition to the financial support we provide, these partnerships also enable our people to engage with the students directly, participating in activities and events undertaken throughout the year. Similarly, our support of the Ubuntu Football Academy in South Africa, an organisation committed to integrating graduates back into their individual communities to foster long-term change, also provides the opportunity for hands-on interaction with students and the opportunity to bring new perspectives. Ultimately, in engaging with these organisations, we hope to encourage students to complete their schooling and introduce them to the concept of a career in engineering.

Based in Accra, Ghana, BASICS International is committed to protecting the basic human rights of children to education, shelter, food and safety and we have shared a long history with the organisation dating back to 2010 when we supported them to build a school in Accra.

Our focus in recent years has been on providing support in the development of a camp for children in the countryside outside of Accra, offering STEM education and vocational and outdoor activities. Construction commenced in late 2024, with Phase 1 of the project, including the construction of the caretaker’s house, technical buildings for student lessons, a cluster of palava huts for communal gatherings and assemblies, and a toilet and change room block, now complete, enabling day visits to commence. Phase 2, anticipated to commence in FY27, will include the construction of student and staff accommodation for longer stays.

Our support of Rafiki Australia Tanzania’s Rafiki wa Binti (which means ‘a friend for a girl’ in Swahili) program remains ongoing. To mitigate the widespread issue of girls in Tanzania leaving school at puberty because they don’t have the understanding or means to manage their menstrual cycle, the Rafiki wa Binti program is providing menstrual packs, including reusable period underwear and education kits, to schools in rural Tanzania, delivered via an education officer. The concept has been developed in consultation with local communities and so far, the initiative has provided 4,000 Binti Packs (24,000 pairs of underwear) to 4,000 girls across the country. An ambitious target has been set to reach a further 6,000 girls by the end of 2026.

Our team in Manila is continuing to build its relationship with the Eugenia Ravasco Foundation, whose mission is to fight against social exclusion in the Philippines, offering protection, medical care, nutrition and education to support vulnerable families to integrate in their communities.

Rafiki wa Binti, Tanzania

Over the year, we donated grocery hampers to families at Christmas and funded the School Wellness and Infrastructure Project for the Eugenia Ravasco Day Care Centre. The project included the renovation of classroom and toilet facilities and revitalisation of the playground, in addition to providing complete sets of uniforms, shoes, bags, school supplies, and hygiene kits to more than 60 young students.

The Twin Hills Trust in Namibia serves as the socio-economic and environmental development vehicle for companies associated with the Twin Hills Gold Project, for which we are currently providing EPCM services for construction of the plant. The Trust was established to champion development projects that contribute to community support, including health initiatives; education, including early childhood development; and Training & Enterprise development. With this remit in mind, which is closely aligned with that of the Lycopodium Foundation, we have been very pleased to support the work of the Trust during FY26.

The Lycopodium Women in Mechanical Engineering Scholarship was established in 2024 to provide support to female students undertaking a degree in Mechanical Engineering at Curtin University in Western Australia. The scholarship provides financial support to students as they complete the final two years of their degree, contributing towards payment of their course fees, or for other education-related expenses such as textbooks or general living expenses. Since its inception, we have welcomed four young female engineers into the business, with our inaugural recipients now working for us on a full-time basis and the other two recipients participating in our Summer Vacation Program whilst completing their studies.

Alongside Company-initiated partnerships, I am proud of the strong sense of purpose demonstrated by our people in supporting initiatives close to their own hearts. Notably, our long-standing partnership with Jeans for Genes, dating back

to the 1990s, which has raised an exceptional \$550,000 for the Children's Medical Research Institute. Our employees also continue to contribute to the valuable work of organisations including the St Vincent de Paul Society and Breast Cancer Care WA, amongst others.

Our membership of the Australia-Africa Minerals & Energy Group (AAMEG), the peak body representing Australian companies engaged in the development of Africa's resource industry, continues to be a valuable resource in supporting our work across the region.

Acknowledgement

FY26 represents another strong year for Lycopodium, with our expanding global presence presenting new opportunities and strengthening our position in key markets. We continue to deliver a range of significant projects and studies worldwide, underpinned by the expertise and dedication of our people.

On behalf of the Board of Directors, I thank our executive leadership team, management and staff for their exceptional efforts. The quality of our work and the relationships we have built with our clients and delivery partners is something we can all be proud of. I also acknowledge and thank our clients for placing their continued trust in us.

Peter De Leo
Managing Director & Chief Executive Officer
Lycopodium Limited

Eugenia Ravasco Foundation, Philippines

A summary of consolidated revenues and results for the financial period by reportable operating segment is set out below:

	Segment Revenue		Segment Results	
	2026 \$000's	2025 \$000's	2026 \$000's	2025 \$000's
Asia Pacific	218,059	236,475	17,489	34,209
Africa	40,749	46,038	4,727	7,624
Americas	166,061	59,686	27,780	15,058
Intersegment eliminations	(50,850)	(8,264)	-	-
Unallocated	3,530	5,679	2,465	3,614
Total	377,549	339,614	52,461	60,505
Income tax expense			(11,900)	(18,026)
Profit for the year			40,561	42,479
Less: Loss/(profit) attributable to non-controlling interest			(392)	(261)
Profit attributable to owners of Lycopodium Ltd			40,169	42,218

Risk Management Overview

Lycopodium has a robust approach to risk management in order to provide sustainable longterm value to its shareholders. Strong risk management practices enable the Board and management to make strategic decisions that align with the risk appetite of the business.

Our risk management framework provides a whole-of-business approach and sets out the process for identifying, evaluating, monitoring, reviewing and reporting of risk. The Board has established a Risk Committee which monitors, reviews and reports on our risk management throughout the business. We undertake risk assessments and workshops to evaluate and prioritise risks. These include emerging risks which may present the business with medium to long-term risk exposure.

We use qualitative and quantitative methods to define risk consequences. We view consequences across a range of possible financial and non-financial impacts, such as health and safety, environmental, reputational, commercial and legal and community. To prioritise risk we use our Company risk matrix and consider the risk's consequences as well as its likelihood. This assists in identifying risks that have the potential to be the most significant.

In FY2026 we identified seven strategic risks that could influence the sustainability of our business. These risks, with an outline of our mitigation controls, are set out in no particular order and are not an exhaustive list of risks that may impact Lycopodium, however are considered to be the most significant.

Risk and Context	Description	Lycopodium Controls
Harm to our people	A safe and healthy work environment is fundamental to our values. The nature of our work and the geographies in which we work means our people are at higher risk of experiencing incidents including life-changing events which have the potential to cause physical and psychological harm.	We are committed to protecting the health, safety and wellbeing of our employees, contractors and other key stakeholders at all times. We support this through: • Comprehensive health and safety policies, standards and systems designed to prevent and mitigate potential exposure to health, safety and security risks • Investigating actual and potential significant events that could have led to injury or harm • Regularly reviewing and auditing our health and safety systems and processes • Being prepared with emergency, incident and crisis management plans • Providing regular hazard awareness updates, sharing of lessons learnt and training
Project delivery	Unsuccessful fixed price contracts can have a material and onerous impact on the business if they are not managed correctly. Time delays, project staffing, client and subcontractor relationship management and greater macro-economic impacts to cost of supplies and equipment can all have significant impact on the outcome of fixed priced contracts. Cost overruns, schedule blowouts and litigation with client and subcontractors can all impact Company cash flow and reputation as well as put stress on the greater workforce.	All projects are carefully managed by Lycopodium from initial assessment through to the completion and handover to the client. We support our engineers, construction and other project delivery specialists with: • Strong Go/No Go project assessments • Project Delivery Framework which supports execution through knowledge management systems and standardised delivery processes • Commercial Management Framework including contracting strategy, assessment of risk for each project and claims management processes • Use of the Technical Assurance Group (TAG) • Project Services Group (independent of the project delivery teams) provides oversight for cost control and schedule management; including the use of earned value management techniques (EVM) • Working with a strong proven subcontractor base offshore • Experienced project management teams • Documented Principles of Contracting • Project Governance Structure of monthly project performance reviews for early detection of project concerns
Technical failure of project	A project or study fails to meet its intended purpose due to technical deficiencies or major delivery failure giving rise to major claims on Lycopodium and its insurers. A variety of factors can contribute to technical failures within the complex environments that Lycopodium works. Management oversight on projects, lack of training, poor change management and lack of definition or direction from clients can all contribute to technical deficiencies on projects.	We use robust review and training processes to mitigate technical risks to the maximum extent reasonably possible, including: • Technical and peer review teams and processes • Use of the Technical Assurance Group (TAG) • Commercial team – all contracts vetted and negotiated • ISO9001 aligned procedures and processes • Management overview • Preapproval and vetting of vendors and consultants • Training programs and mentoring • Having the originating office be held accountable for assurance • Involving project delivery focused personnel in the development and agreement of performance guarantees

Risk and Context	Description	Lycopodium Controls
Sovereign / human rights and security risks	Lycopodium operates across multiple geographical locations. Some of these jurisdictions are subject to sovereign, human rights and security risks. Changes in government, regulation and tax regimes has the potential to impact our operational performance and financial returns.	We seek to develop a comprehensive understanding of the overseas jurisdiction before entering it: • Due diligence on any prospective new country • Employ a variety of commercial and contracting strategies to mitigate in-country risks • External specialist advice obtained • Regularly monitoring our tax risks and engaging specialist independent advice and assurance • Monitoring current and potential geographies' political, economic, security and social conditions on a daily basis and making and adapting plans accordingly • Development of policies and plans obligating our personnel and those personnel and organisations with whom we engage to comply with commitments we have made regarding human rights, modern slavery, codes of conduct and the like
Material litigation	Given the breadth of clients and geographical diversity with whom and across which Lycopodium operates, the complexity of contracts with both clients and subcontractors can lead to misalignment of understanding and contractual commitments / requirements between the various parties. Where these issues can't be resolved it can result in litigation that poses the risk of slowing operations, tying up resources as well as the reputational and financial impacts of any action taken. Depending on where any litigation takes place, the timeline to resolution as well as the costs to the Company can range from material to substantial.	In order to avoid any material litigation Lycopodium enacts the following throughout the contracting process: • Clear consideration and adoption of tailored contracting strategy and risk assessments for each potential project • Engaging strong, proven, culturally aligned contractors / subcontractors, who are generally considered less contractual in their nature and approach • 'Back-to-back' performance obligations to subcontractors where possible in line with head contract requirements • Robust claims and general change management processes to manage contracts throughout their life • Experienced Project Managers and management team • Principles of contracting documented • Having contract management processes in place which obligate our project teams to actively engage in open dialogue with clients, contractors and other key stakeholders to ensure matters are understood as they emerge and managed in an efficient and timely basis
Attract, retain and develop talent	Attracting, retaining and developing employees continues to be a high priority for the business, however it is a challenging talent market.	We recognise that having resource capacity and capability is core to our business. Our priorities include: • A well-defined employee value proposition to attract and engage top talent • A graduate program that focuses on training and developing young talent • Implementing reward, remuneration and recruitment strategies that position the Company relative to the market • Targeted retention strategies and succession plans for critical roles and key talent • Leadership and mentoring programs for our emerging leaders to strengthen our capability
Cyber security	The growing volume and complexity of cybercrime is increasing. Lycopodium could experience business interruptions to critical IT services or other breaches of its information systems that could lead to the loss of intellectual property.	Our cyber-security program improves the security environment of our IT services including: • Continuing to invest in systems, tools and infrastructure to protect our assets • Having layered security measures including multi-factor authentication • Framework in place to align information security policies and standards to ISO 27001 • Penetration testing and supporting independent assurance of our control framework and key operating software • Employee education and training initiatives including phishing awareness and testing campaigns • Business resilience plans for cyber-related scenarios

Significant Changes in the State of Affairs

There are no significant changes in the state of affairs of the consolidated entity during the year.

Matters Subsequent to the End of the Financial Year

Dividends

Since year end the Directors have recommended the payment of a final dividend on ordinary shares in respect of the 2026 financial year. The total amount of dividend is \$14,703,884 (2025: \$9,935,057) which represents a fully franked dividend of 37.0 cents (2025: 25.0 cents) per fully paid ordinary share.

With the exception of the above, no other matter or circumstance has arisen since 30 June 2026 that has significantly affected, or may significantly affect:

- (a) the consolidated entity's operations in future financial years, or
- (b) the results of those operations in future financial years, or
- (c) the consolidated entity's state of affairs in future financial years.

Likely Developments and Expected Results of Operations

The consolidated entity will continue to provide engineering consultancy services as detailed above.

Refer to the Review of Operations section within the Directors' Report for information regarding the likely developments and expected results.

Environmental Regulation

The consolidated entity's operations are not subject to significant environmental regulation under a law of the Commonwealth or of a State or Territory in respect of its consulting activities.

Information on Directors

Rodney Lloyd Leonard BSc, MSc (Metallurgy), MAusIMM Non-Executive, Independent Chairman	
Experience and expertise	Mr Leonard has over 30 years' experience in the mineral processing industry and was the Managing Director of Lycopodium (APAC) Pty Ltd until 30 June 2019. Mr Leonard has been a Non-Executive Director of various subsidiaries prior to becoming Chairman on 28 November 2023.
Length of service	25 October 2001 to present
Other current directorships	Non-Executive Director of West African Resources Limited
Former directorships in last 3 years	None
Special responsibilities	Chairman of the Board Chair of the Remuneration Committee Member of the Audit committee Member of the Risk Committee Member of the Corporate Governance Committee
Interest in shares and options	Ordinary shares of Lycopodium Limited: 902,930
Peter De Leo BE (Civil), CPEng, FIEAust Managing Director and Chief Executive Officer	
Experience and expertise	Mr De Leo has over 30 years' experience in the construction and engineering fields. Mr De Leo is the Managing Director and Chief Executive Officer of Lycopodium Limited and was previously the Managing Director of Lycopodium (APAC) Pty Ltd.
Length of service	1 February 2007 to present
Other current directorships	Non-Executive Director of Mondium Pty Ltd Non-Executive Director of Australia-Africa Minerals and Energy Group Limited
Former directorships in last 3 years	Non-Executive Director of Argosy Minerals Ltd
Special responsibilities	Member of the Corporate Governance Committee Member of the Audit Committee Member of the Risk Committee
Interest in shares and options	Ordinary shares of Lycopodium Limited: 909,053 Performance rights of Lycopodium Limited: 42,848
Bruno Ruggiero BE (Mechanical), Grad Dip Min Sc, Grad Cert Eng Tech, MIEAust Executive Director	
Experience and expertise	Mr Ruggiero has over 30 years' experience in the minerals industry. He currently serves as the Group Technical Director having overarching responsibility for the Company's technical knowledge base, capabilities and direction. Mr Ruggiero is a Director of Lycopodium (APAC) Pty Ltd.
Length of service	25 October 2001 to present
Other current directorships	Non-Executive Director of ECG Engineering Pty Ltd Non-Executive Director of Quantum Graphite Limited
Former directorships in last 3 years	None
Special responsibilities	Member of the Corporate Governance Committee Member of the Risk Committee
Interest in shares and options	Ordinary shares of Lycopodium Limited: 479,786 Performance rights of Lycopodium Limited: 34,617

Karl Anthony Cicanese, MBA , MAusIMM	
Executive Director	
Experience and expertise	Mr Cicanese has over 25 years’ industry experience, with indepth knowledge of the Lycopodium business, having held a number of senior roles within Lycopodium (APAC) Pty Ltd, including General Manager, Group Manager and Project Director. Mr Cicanese is currently Managing Director of Lycopodium (APAC) Pty Ltd.
Length of service	23 November 2020 to present
Other current directorships	Non-Executive Director of Mondium Pty Ltd
Former directorships in last 3 years	None
Special responsibilities	Member of the Corporate Governance Committee
Interest in shares and options	Ordinary shares of Lycopodium Limited: 17,203 Performance rights of Lycopodium Limited: 38,285

Michael John Caratti	10	*	2	*
Robert Radici	11	*	*	2
Louise Bower	11	2	2	*

* Not a member of the committee

Remuneration Report – Audited

The Directors present the Lycopodium Limited 2026 Remuneration Report, outlining key aspects of our remuneration policy and framework, and remuneration awarded this year.

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all Directors.

Directors and Key Management Personnel Disclosed in this Report

Name	Position
Rodney Lloyd Leonard	Non-Executive, Independent Chairman
Peter De Leo	Managing Director and Chief Executive Officer
Karl Anthony Cicanese	Executive Director
Bruno Ruggiero	Executive Director
Justine Campbell	Chief Financial Officer and Company Secretary
Michael John Caratti	Non-Executive Director
Louise Bower	Non-Executive, Independent Director
Robert Radici	Non-Executive, Independent Director

Principles Used to Determine the Nature and Amount of Remuneration

The objective of the consolidated entity’s executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders, and it is considered to conform to the market best practice for the delivery of reward. The Board of Directors (‘the Board’) ensures that executive reward satisfies the following key criteria for good reward governance practices:

- Competitiveness and reasonableness
- Acceptability to shareholders
- Performance linkage/alignment of executive compensation
- Transparency

Role of the Remuneration Committee

The remuneration committee is primarily responsible for making recommendations on:

- Remuneration levels of Executive Directors and other key management personnel;
- The overarching executive remuneration framework and operation of any incentive plan; and
- Key performance indicators and performance hurdles for the executive team.

The objective is to ensure that remuneration policies and structures are fair and competitive and aligned with the long-term interests of the Company.

Non-Executive Director Remuneration Policy

Fees and payments to Non-Executive Directors reflect the demands which are made on, and the responsibilities of, the Directors. Non-Executive Directors’ fees and payments are reviewed annually by the Board to ensure that they are appropriate and in-line with the market.

Non-Executive Directors are also paid fixed fees for subsidiary board and committee attendance, as required.

ASX listing rules require the aggregate Non-Executive Directors’ remuneration be determined periodically by a general meeting. The most recent determination was at the Annual General Meeting held on 12 November 2025, where the shareholders approved a maximum aggregate remuneration of AUD 639,047.

Directors’ Fees

The current base fees were last reviewed with effect from 1 July 2025. The fees are exclusive of committee and subsidiary board fees. Details on Directors fees are disclosed under service agreements on page 19.

Executive Remuneration Policy and Framework

The executive remuneration framework has three components:

- Fixed annual remuneration, including superannuation,
- Short term Incentive (STI) which is cash based, and
- Long term Incentive (LTI) which is equity based.

Fixed annual remuneration is structured as a total employment cost package which is delivered as a combination of salary and prescribed non-financial benefits partly at the executive’s discretion. Fixed annual remuneration is reviewed at a minimum annually to ensure the executive’s pay is competitive with the market. An executive’s pay is also reviewed on promotion.

A service or senior management bonus may be provided to certain senior salaried employees payable annually, at the discretion of the Company.

Consolidated Entity Performance and Link to Remuneration

The distribution pool of the STI and LTI is determined annually taking account of the achievement of a minimum audited NPAT of the overall company and a gateway hurdle related to company wide incidents.

The STI performance measure is the achievement of a minimum audited NPAT.

The LTI performance measures are assessed on the achievement of personal and Company objectives.

Use of Remuneration Consultants

During the financial year ended 30 June 2026, the consolidated entity did not engage any remuneration consultants for assisting the Remuneration Committee.

Voting and Comments Made at the Company’s Annual General Meeting

The remuneration report for the 2025 financial year was approved with 95% votes in favour by shareholders during the AGM. The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

Company Performance

The profit after income tax expense and basic earnings per share for the Company for the last five years is as follows:

	2026	2025	2024	2023	2022
Revenue (\$000’s)	377,549	339,614	348,879	327,572	232,157
Profit before income tax (\$000’s)	52,461	60,505	69,736	63,277	38,927
Income tax expense (\$000’s)	11,900	18,026	18,803	17,718	12,075
Profit after income tax (\$000’s)	40,561	42,479	50,933	45,559	26,852
Basic EPS (cents)	101.1	106.2	127.6	117.7	68.4
Basic EPS growth, year on year (%)	(4.85%)	(16.75%)	8.40%	72.13%	91.60%
Fully franked dividends per share (cents)	59	35	77	81	54
Change in share price* (\$)	7.20	(2.43)	2.21	4.88	0.30
Return on equity (%)	25.26%	30.38%	42.19%	42.83%	28.67%

* Calculated as the difference between the closing share price at the start and end of the respective financial years

Details of Remuneration

Cash bonuses are dependent on meeting defined performance measures. The amount of the bonus is determined having regard to the satisfaction of performance measures. The maximum bonus values are established at the start of each financial year and amounts payable are determined soon after year-end when expected profitability for the financial year is ascertained. No cash bonuses were forfeited.

Service Agreements

Remuneration and other terms of employment for the Directors and key management personnel are formalised in employment contracts. Each contract deals with fixed annual remuneration. Other major provisions of the agreements relating to remuneration are set out below.

All employment contracts with Directors and Executives may be terminated by either party with three months' notice. None of the Directors or Executives are provided with termination benefits.

Name	Term of agreement	Fixed Remuneration including superannuation*
Rodney Lloyd Leonard Non-executive Independent Chairman	No fixed term	Chairman fee of \$139,155 p.a. Committee fee of \$10,000 p.a. per committee
Michael John Caratti Non-executive Director	No fixed term	Director fee of \$92,770 p.a. Committee fee of \$10,000 p.a. per committee
Louise Bower Non-executive Independent Director	No fixed term	Director fee of \$92,770 p.a. Committee fee of \$10,000 p.a. per committee
Robert Radici Non-executive Independent Director	No fixed term	Director fee of \$92,770 p.a. Committee fee of \$10,000 p.a. per committee
Peter De Leo Managing Director	No fixed term	\$844,867 p.a.
Bruno Ruggiero Executive Director	No fixed term	\$709,617 p.a.
Karl Anthony Cicanese Executive Director	No fixed term	\$776,904 p.a.
Justine Campbell Chief Financial Officer and Company Secretary	No fixed term	\$610,076 p.a.

* Fixed remuneration payable from 1 July 2025 and reviewed annually by the Remuneration Committee

Share-Based Compensation

Incentive Performance Rights Plan

Performance rights were granted to certain Executive Directors as approved at the Annual General Meeting on 13 November 2025.

Loan Funded Share Acquisition Plan

No limited recourse loan funded shares were issued during the current financial year to any of the Directors or key management personnel (2025: Nil shares). The limited recourse loan funded shares balance as at end of FY2026 relating to Justine Campbell was \$215,528 (2025: \$229,028) for 50,000 shares (2025: 50,000 shares) and Karl Cicanese was \$ Nil (2025: \$1,136,700) for Nil shares (2025: 200,000 shares).

Both of the above plans were designed to give incentives to the Executives to provide dedicated and ongoing commitment and effort to the consolidated entity and align the interests of both employees and shareholders.

Further information on rights over ordinary shares on issue is set out in note 37 to the financial statements.

The table below shows the number of rights holdings and ordinary share holdings for Directors and key management personnel.

(i) Rights Holdings

The numbers of rights in the Company held during the financial year by Directors of Lycopodium Limited and other key management personnel of the Company, including their personally related parties, over ordinary shares in the Company are set out below.

	Balance at start of the year	Granted as compensation (*)	Exercised (**)	Other changes	Balance at end of the year	Vested and exercisable	Unvested
2026							
Directors of Lycopodium Limited							
Peter De Leo	47,679	14,022	18,853	-	42,848	-	42,848
Bruno Ruggiero	36,172	11,836	13,391	-	34,617	-	34,617
Karl Anthony Cicanese	42,744	12,544	17,003	-	38,285	-	38,285
Other key management personnel							
Justine Campbell	41,049	11,378	18,423	-	34,004	-	34,004

* Granted under the Incentive Performance Rights Plan, amounting to \$547,993

** Exercised under the Incentive Performance Rights Plan, amounting to \$308,771

The terms and conditions of each grant of rights over ordinary shares affecting remuneration of Directors and other key management personnel in this financial year or future reporting years are as follows:

Name	Number of rights granted	Grant date	Vesting date and exercisable date	Expiry date	Exercise price	Fair value per right at grant date
Directors of Lycopodium Limited						
Peter De Leo	14,022	13-Nov-25	12-Nov-28	13-Nov-30	\$ -	\$11.09
Bruno Ruggiero	11,836	13-Nov-25	12-Nov-28	13-Nov-30	\$ -	\$11.09
Karl Anthony Cicanese	12,544	13-Nov-25	12-Nov-28	13-Nov-30	\$ -	\$11.09
Other key management personnel						
Justine Campbell	11,378	14-Nov-25	13-Nov-28	13-Nov-30	\$ -	\$10.75

(ii) Share Holdings

The numbers of shares in the Company held during the financial year by Directors of Lycopodium Limited and other key management personnel of the Company, including their personally related parties, are set out below. There were no shares granted during the reporting period as compensation.

	Balance at start of the year	Received during the year on the exercise of rights	Other changes during the year	Balance at end of the year
2026				
Directors of Lycopodium Limited				
Michael John Caratti	9,109,367	-	-	9,109,367
Peter De Leo	915,200	18,853	(25,000)	909,053
Rodney Lloyd Leonard	902,930	-	-	902,930
Bruno Ruggiero	1,000,520	13,391	(534,125)	479,786
Karl Anthony Cicanese	200,200	17,003	(200,000)	17,203
Other key management personnel				
Justine Campbell	53,611	18,423	(3,000)	69,034

Loans to Key Management Personnel

No loans were made to Directors of Lycopodium Limited and other key management personnel of the consolidated entity, including their personally related parties during the year (2025: Nil).

Loans that are in-substance options and are non-recourse to the consolidated entity are excluded from loans to key management personnel.

End of Remuneration Report.

Shares under performance rights

Unissued ordinary shares of Lycopodium Limited at the date of this report are as follows:

Date performance rights issued	Expiry date	Issue price of shares	Number
19-November-2021	18 November 2026	\$0.00	7,035
16-November-2022	15 November 2027	\$0.00	12,238
14-November-2023	13 November 2028	\$0.00	134,787
12-November-2024	11 November 2029	\$0.00	121,661
13-November-2025	13 November 2030	\$0.00	137,453

Insurance of Officers

During the financial year, Lycopodium Limited took out insurance cover for the Directors, Company Secretary and senior officers of the Company and its controlled entities.

The liabilities insured are costs and expenses that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of entities in the Company, and any other payments arising from liabilities incurred by the officers in connection with such proceedings, other than where such liabilities arise out of conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for themselves or someone else or to cause detriment to the Company.

The Directors have not included specific details of the premium paid as such disclosure is prohibited under the terms of the contract.

Indemnity of Auditors

Lycopodium Limited has agreed to indemnify its auditors, RSM Australia, to the extent permitted by law, against any claim by a third party arising from Lycopodium Limited's breach of their agreement. The indemnity stipulates that Lycopodium Limited will meet the full amount of any such liabilities including a reasonable amount of legal costs.

Proceedings on Behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Non-Audit Services

Details of the amounts paid or payable to the auditor for non-audit services provided during the financial year by the auditor are outlined in note 28 to the financial statements.

The Directors are satisfied that the provision of non-audit services during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The Directors are of the opinion that the services as disclosed in note 28 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- All non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- None of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

Officers of the Company who are Former Partners of RSM Australia

There are no officers of the Company who are former partners of RSM Australia.

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this Directors' Report.

Auditor

RSM Australia continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of Directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the financial report of Lycopodium Limited for the year ended 30 June 2026, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Consolidated Statement of Cash Flows

For the Year Ended 30 June 2026

	Notes	2026 \$000's	2025 \$000's
Cash flows from operating activities			
Receipts from customers (inclusive of GST)		405,468	338,667
Payments to suppliers and employees (inclusive of GST)		(330,402)	(286,653)
		75,066	52,014
Interest received		1,758	2,431
Interest and other finacnce cost paid		(1,066)	(1,202)
Income taxes paid		(16,402)	(16,030)
Net cash inflow/(outflow) from operating activities	35	59,356	37,212
Cash flows from investing activities			
Dividends received from joint ventures and associate		2,397	1,054
Payment for purchase of business, net of cash acquired	33	(8,671)	-
Payments for property, plant and equipment	12	(2,467)	(1,951)
Payments for intangibles		(94)	(26)
Proceeds from sale of property, plant and equipment		49	-
Proceeds from sale of investments in listed equities		1,741	-
Repayment of loan shares		1,215	-
Net cash inflow/(outflow) from investing activities		(5,830)	(923)
Cash flows from financing activities			
Proceeds from borrowings		4,919	5,366
Repayments of borrowings		(5,249)	(4,196)
Loan from associates and joint ventures		-	4,800
Repayment of loans from associates and Joint ventures		-	(4,800)
Purchase of shares under employee share plans		(1,890)	(1,927)
Repayment of lease liabilities		(4,556)	(4,134)
Dividends paid		(18,678)	(19,870)
Net cash outflow from financing activities		(25,454)	(24,761)
Net increase/(decrease) in cash and cash equivalents		28,072	11,528
Cash and cash equivalents at the beginning of the financial year		79,036	67,564
Effects of exchange rate changes on cash and cash equivalents		(913)	(56)
Cash and cash equivalents at the end of financial year	8	106,195	79,036

The above statement of cash flows should be read in conjunction with the accompanying notes

Notes to the Financial Statements

For the Year Ended 30 June 2026

1. Summary of Material Accounting Policies

The principal accounting policies adopted in the preparation of this consolidated financial report are set out below.

These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report comprises the financial report for the Company consisting of Lycopodium Limited and its subsidiaries.

(a) Basis of Preparation

This general purpose financial report has been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the Corporations Act 2001. Lycopodium Limited is a for-profit entity for the purpose of preparing the financial report. The consolidated financial report of Lycopodium Limited and its subsidiaries complies with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

All amounts have been presented in Australian dollars, rounded to the nearest thousand dollars (\$'000) unless otherwise stated.

(i) New or Amended Accounting Standards and Interpretations Adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

(ii) Historical Cost Convention

These financial statements have been prepared under the historical cost convention, as modified by the measurement of financial assets/liabilities at fair value through profit and loss.

(iii) Critical Accounting Estimates

The preparation of the financial report requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial report, are disclosed in note 3.

(b) Principles of Consolidation

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the consolidated entity (refer to note 1(h)).

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the Consolidated Statement of Comprehensive Income, Consolidated Statement of Changes in Equity and Consolidated Statement of Financial Position, respectively.

(ii) Employee Share Trust

The consolidated entity has formed a trust to administer the consolidated entity's employee share scheme. This trust is consolidated, as the substance of the relationship is that the trust is controlled by the consolidated entity.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(iii) Joint Arrangements

Under AASB 11 Joint Arrangements investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. Lycopodium Limited has joint venture arrangements.

(iv) Joint Ventures

Interests in joint ventures are accounted for using the equity method (see (vi) below), after initially being recognised at cost in the Consolidated Statement of Financial Position.

(v) Associates

Associates are all entities over which the consolidated entity has significant influence but not control or joint control. This is generally the case where the consolidated entity holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (vi) below), after initially being recognised at cost.

(vi) Equity Method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the consolidated entity's share of the post-acquisition profits or losses of the investee, and the consolidated entity's share of movements in other comprehensive income of the investee. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the consolidated entity's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the consolidated entity does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the consolidated entity and its associates and joint ventures are eliminated to the extent of the consolidated entity's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity-accounted investees have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

(vii) Changes in Ownership Interests

The consolidated entity treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the consolidated entity. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributed to owners of Lycopodium Limited.

When the consolidated entity ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial

asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the consolidated entity had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(c) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(d) Revenue and Other Income Recognition

Revenue from Contracts with Customers

The consolidated entity recognises revenue on an 'over time' basis. This applies to the two services of which the consolidated entity provides:

- Engineering and related services
- Construction contracts

To determine whether to recognise revenue, the consolidated entity follows a five-step process:

- (1) Identifying the contract with a customer
- (2) Identifying the performance obligations
- (3) Determining the transaction price
- (4) Allocating the transaction price to the performance obligations
- (5) Recognising revenue when/as performance obligation(s) are satisfied

For work being performed in the completion of contracts with fixed prices, the customer controls the assets as it is created or enhanced. Progress towards completion of the contract is measured according to the proportion of contract costs incurred for work performed to date relative to the estimate total contract costs.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Where recognised revenues exceed progress billings, the surplus is shown in Contract Assets. For contracts where progress billings exceed recognised revenues, the surplus is shown as Contract Liabilities.

Certain customer contracts are man-hours and expense based. In these circumstances, revenue is recognised over time as the consolidated entity has a right to consideration from the customer in an amount that corresponds directly with the value to the customer of the entity's performance completed at the time of billing. The consolidated entity therefore recognises revenue in the amount to which the consolidated entity has the right to invoice.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are recognised as a refund liability.

Interest

Interest revenue is recognised on an accrual basis.

Dividend

Dividend income is recognised when the dividend is declared.

Rental Income

Rental income is recognised on a straight line basis over the term of the operating lease.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(e) Foreign Currency Translation

(i) Functional and Presentation Currency

Items included in the financial report of each of the consolidated entity's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Consolidated financial report is presented in Australian dollars, which is Lycopodium Limited's functional and presentation currency.

(ii) Transactions and Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit and loss.

Translation differences on financial assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary assets such as equities classified as available-for-sale financial assets are recognised in other comprehensive income.

(iii) Consolidated Entities

The results and financial position of foreign operations that have a functional currency different from the consolidated entity's presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each Statement of Financial Position presented are translated at the closing exchange rate at the reporting date.
- Income and expenses for each Statement of Comprehensive Income are translated at average exchange rates for the period unless this is not a reasonable approximation of the cumulative effect of rates prevailing at the transaction dates, in which case income and expenses are translated at the rates at the dates of the transactions.
- All resulting exchange differences are recognised in other comprehensive income.

For foreign operations whose functional currency is the currency of a hyperinflationary economy, the financial statements are first restated in accordance with AASB 129 Financial Reporting in Hyperinflationary Economies before being translated into the Group's presentation currency. Where the Group has determined that the functional currency of a hyperinflationary foreign operation is any non-hyperinflationary currency, transactions, balances and results are measured in that functional currency before translation into the consolidated entity's presentation currency in accordance with the consolidated entity's foreign currency translation policies.

On consolidation, exchange differences arising from the translation of any net investment in foreign operations, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold, or borrowings forming part of the net investment are repaid, the associated exchange differences are recognised in profit or loss as part of the gain or loss on disposal, where applicable.

(f) Income Tax

The income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting year in the countries where the Company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial report. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting year and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Notes to the Financial Statements

For the Year Ended 30 June 2026

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the consolidated entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Lycopodium Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation effective 1 July 2013. As a consequence, these entities are taxed as a single entity and the deferred tax assets and liabilities of these entities are set off in the consolidated financial report.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(g) Right-of-Use Assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

(h) Business Combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred, and the equity interests issued by the consolidated entity. The consideration transferred also includes the fair value of any asset or liability resulting from a contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition-date. On an acquisition- by-acquisition basis, the consolidated entity recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred and the amount of any non-controlling interest in the acquiree over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(i) Impairment of Assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting year.

(j) Current and Non-Current Classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

(k) Cash and Cash Equivalents

For Statement of Cash Flow presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

(l) Trade Receivables and Other Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less expected credit loss. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account (expected credit loss on trade receivables) is used when there is objective evidence that the consolidated entity will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognised in the Consolidated Statement of Profit and Loss and Other Comprehensive Income within 'other expenses'. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against 'other expenses' in the Consolidated Statement of Profit and Loss and Other Comprehensive Income.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(m) Contract Assets

Contract assets are recognised when the consolidated entity has transferred goods or services to the customer but where the consolidated entity is yet to establish an unconditional right to consideration. Contract assets are treated as financial assets for impairment purposes.

(n) Customer Acquisition Costs

Customer acquisition costs are capitalised as an asset where such costs are incremental to obtaining a contract with a customer and are expected to be recovered. Customer acquisition costs are amortised on a straight-line basis over the term of the contract.

Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained or which are not otherwise recoverable from a customer are expensed as incurred to profit or loss. Incremental costs of obtaining a contract where the contract term is less than one year is immediately expensed to profit or loss.

(o) Customer Fulfilment Costs

Customer fulfilment costs are capitalised as an asset when all the following are met: (i) the costs relate directly to the contract or specifically identifiable proposed contract; (ii) the costs generate or enhance resources of the consolidated entity that will be used to satisfy future performance obligations; and (iii) the costs are expected to be recovered. Customer fulfilment costs are amortised on a straight-line basis over the term of the contract.

(p) Inventories

Raw materials, work in progress and finished goods are stated at the lower of cost and net realisable value on a 'first in first out' basis. Cost comprises of direct materials and delivery costs, direct labour, import duties and other taxes, an appropriate proportion of variable and fixed overhead expenditure based on normal operating capacity and where applicable, transfers from cash flow hedging reserves in equity. Costs of purchased inventory are determined after deducting rebates and discounts received or receivable.

Stock in transit is stated at the lower of cost and net realisable value. Cost comprises purchase and delivery costs, net of rebates and discounts received or receivable.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(q) Non-Derivative Financial Assets

(i) Classification

The consolidated entity classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss).
- Those to be measured at amortised cost.

The classification depends on the consolidated entity's business model for managing financial assets and the contractual terms of the cashflows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For Investments in equity instruments that are not held for trading, this will depend on whether the consolidated entity has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. The consolidated entity reclassifies debt investments when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the consolidated entity measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Measurement of cash and cash equivalents and trade and other receivables remains at amortised cost consistent with the comparative period.

Notes to the Financial Statements

For the Year Ended 30 June 2026

Debt Instruments

Subsequent measurement of debt instruments depends on the consolidated entity's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories which the consolidated entity classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- Fair value through other comprehensive income (FVOCI): Assets that are held for collecting contractual cash flows and through sale on specified dates. A gain or loss on a debt investment that is subsequently measured at FVOCI is recognised in other comprehensive income. None are currently held by the consolidated entity.
- Fair value through profit or loss (FVPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit or loss within other gains/(losses) in the period in which it arises. None are currently held by the consolidated entity.

Equity Instruments

The consolidated entity subsequently measures all equity investments at fair value. Where the consolidated entity's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the consolidated entity's right to receive payments is established. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. Changes in the fair value of financial assets at fair value through profit or loss are recognised either in other income or in other expenses in the statement of profit or loss.

(iii) Impairment

The consolidated entity assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables and other receivables, the consolidated entity applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(r) Non-Derivative Financial Liabilities

Interest Bearing Liabilities

All loans and borrowings are initially recognised at fair value, being the amount received less attributable transaction costs. After initial recognition, interest bearing liabilities are stated at amortised cost with any difference between cost and redemption value being recognised in the statement of profit or loss over the period of the borrowings on an effective interest basis.

Trade and Other Payables

Liabilities are recognised for amounts to be paid for goods or services received. Trade payables are settled on terms aligned with the normal commercial terms in the consolidated entity's countries of operation.

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year which are unpaid. Due to their short-term nature, they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(s) Contract Liabilities

Contract liabilities represent the consolidated entity's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the consolidated entity recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the consolidated entity has transferred the goods or services to the customer.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(t) Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

(u) Lease Liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

(v) Finance Costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

(w) Derivative Financial Instruments

Derivative financial instruments are stated at fair value, with changes in fair value recognised in the statement of profit or loss. Where derivative financial instruments qualify for hedge accounting, recognition of changes in fair value depends on the nature of the item being hedged. Hedge accounting is discontinued when the hedging relationship is revoked, the hedging instrument expires, is sold, terminated, exercised, or no longer qualifies for hedge accounting.

The consolidated entity documents at the inception of the hedging transaction the economic relationship between hedging instruments and hedged items including whether the instrument is expected to offset changes in cash flows of hedged items. The consolidated entity documents its risk management objective and strategy for undertaking various hedge transactions at the inception of each hedge relationship.

Cash Flow Hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in the cash flow hedge reserve within equity, limited to the cumulative change in fair value of the hedged item on a present value basis from the inception of the hedge. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, within other expenses.

When option contracts are used to hedge forecast transactions, the consolidated entity designates only the intrinsic value of the option contract as the hedging instrument. Gains or losses relating to the effective portion of the change in intrinsic value of the option contracts are recognised in the cash flow hedge reserve in equity. The changes in the time value of the option contracts that relate to the hedged item ('aligned time value') are recognised within other comprehensive income in the costs of hedging reserve within equity.

When forward contracts are used to hedge forecast transactions, the consolidated entity generally designates only the change in fair value of the forward contract related to the spot component as the hedging instrument. Gains or losses relating to

the effective portion of the change in the spot component of the forward contracts are recognised in the cash flow hedge reserve in equity. The change in the forward element of the contract that relates to the hedged item is recognised within other comprehensive income in the costs of hedging reserve within equity. In some cases, the entity may designate the full change

in fair value of the forward contract (including forward points) as the hedging instrument. In such cases, the gains or losses relating to the effective portion of the change in fair value of the entire forward contract are recognised in the cash flow hedge reserve within equity.

Notes to the Financial Statements

For the Year Ended 30 June 2026

Amounts accumulated in equity are reclassified in the periods when the hedged item affects profit or loss, as follows:

- The gain or loss relating to the effective portion of forward and option contracts are ultimately recognised in profit or loss as the hedged item affects profit or loss within expenses.
- The gain or loss relating to the effective portion of the interest rate swaps hedging variable rate borrowings is recognised in profit or loss within ‘finance cost’.

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs, resulting in the recognition of a non-financial asset such as inventory. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to profit or loss. Hedge ineffectiveness is recognised in profit or loss within other expenses.

(x) Property, Plant and Equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the consolidated entity and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting year in which they are incurred.

Depreciation on plant and equipment is calculated using the straight line or diminishing value method to allocate their cost, net of their residual values, over their estimated useful lives, as follows:

- Plant and equipment 3 - 10 years
- Vehicles 5 - 7 years
- Furniture, fittings and equipment 3 - 8 years
- Leasehold improvements 3 - 6 years
- Leased plant and equipment 3 - 5 years

The assets’ residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting year.

An asset’s carrying amount is written down immediately to its recoverable amount if the asset’s carrying amount is greater than its estimated recoverable amount (note 1(i)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the profit and loss.

(y) Intangible Assets

(i) Goodwill

Goodwill is measured as described in note 1(h). Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose, identified according to operating segments (note 4).

(ii) Software

Intangible assets also comprise capitalised computer software. Computer software has a finite useful life and is carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of the computer software over their estimated useful lives, being three years.

(z) Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the year of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial year of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the year in which they are incurred.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(aa) Provisions

Provisions for legal claims, service warranties and make good obligations are recognised when the consolidated entity has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management’s best estimate of the expenditure required to settle the present obligation at the end of the reporting year. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

(ab) Employee Benefits

The obligations are presented as current liabilities in the Consolidated Statement of Financial Position if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

(i) Short-Term Obligations

Liabilities for wages and salaries, including non-monetary benefits expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employees’ services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. All other short-term employee benefit obligations are presented as payables.

The liability for long service leave and annual leave which is not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service is therefore recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period of high-quality corporate bonds with terms and currency that match, as closely as possible, the estimated future cash outflows. Re-measurement as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

(ii) Retirement Benefit Obligations

Contributions to defined contribution funds are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(iii) Share-Based Payments

Share-based compensation benefits are provided to certain Executive Directors and other designated employees via the Performance Rights Plans. Information relating to this scheme is set out in note 36.

The fair value of rights granted under the Performance Rights Plans are recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the rights.

The fair value at grant date is independently determined using a Binomial Tree option pricing model that takes into account the exercise price, the term of the rights, the vesting and performance criteria, the impact of dilution, the non-tradeable nature of the rights, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the rights.

(iv) Loan Funded Share Plan

A limited recourse loans was provided to eligible employees of the Company or such other persons as the Board determines. A broad outline of the plan is summarised below:

- The Company will loan funds to participating employees to purchase Lycopodium Limited shares.
- The loan will be a limited recourse loan provided the employee stays with the Company for greater than three years.
- During the term of the loan, dividends will be offset against the outstanding loan balance.

Notes to the Financial Statements

For the Year Ended 30 June 2026

The Company has the following as the result of this transaction:

Share Based Payment

The difference between the value of the shares purchased and the value of the shares allocated to participating employees represents the cost to the Company for providing the loan to the employees. This amount is expensed in the profit and loss upon vesting.

Loan Funded Shares

The loan funded shares purchased by the eligible employee are classified as a reduction in equity as at the reporting date.

(v) Defined Contribution Superannuation Expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

(ac) Issued Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(ad) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting year but not distributed at the end of the reporting year.

(ae) Earnings Per Share

(i) Basic Earnings Per Share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted Earnings Per Share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(af) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the Consolidated Statement of Financial Position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

(ag) Fair Value Measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Notes to the Financial Statements

For the Year Ended 30 June 2026

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

(ah) Employee Share Trust

The consolidated entity has in place a trust to administer the consolidated entity's employee share and share rights schemes. This trust is consolidated, as the substance of the relationship is that the trust is controlled by the consolidated entity. Shares held by the Lycopodium Employee Share Trust are disclosed as Treasury shares and deducted from contributed equity.

The movement in treasury shares represent acquisition of the Company's shares on market and allocation of shares to the Company's employees from the vesting of awards and exercise of rights under the employee share-based payment trust.

(ai) Parent Entity Financial Information

The financial information for the parent entity, Lycopodium Limited, disclosed in note 38 has been prepared on the same basis as the consolidated financial report, except as set out below.

(i) Investments in Subsidiaries, Associates and Joint Venture Entities

Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the financial report of Lycopodium Limited. Dividends received from associates are recognised in the parent entity's profit or loss, rather than being deducted from the carrying amount of these investments.

(ii) Share Based Payments

The grant by the Company of rights over its equity instruments to the employees of subsidiary undertakings in the Company is treated as a capital contribution to that subsidiary undertaking. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary undertakings, with a corresponding credit to equity.

2. Financial Risk Management

The consolidated entity manages its exposure to key financial risks, including interest rate and currency risk in accordance with the consolidated entity's financial risk management policy. The objective of the policy is to support the delivery of the consolidated entity's financial targets whilst protecting future financial security.

The main risks arising from the consolidated entity's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The consolidated entity uses different methods to measure and manage different types of risks to which it is exposed. These include monitoring levels of exposure to interest rate and foreign exchange risk and assessments of market forecasts for interest rates and foreign exchange. Ageing analyses and monitoring of specific credit allowances are undertaken to manage credit risk, and liquidity risk is monitored through the development of future rolling cash flow forecasts.

The primary responsibility for identification and control of financial risks rests with the Board. The Board reviews and agrees on policies for managing each of the risks identified above.

(a) Market Risk

(i) Foreign Exchange Risk

The consolidated entity operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar (USD) and Canadian dollars (CAD). Exchange rate exposures are managed with approved policy parameters utilising forward exchange contracts.

Foreign exchange risk arises when future commercial transactions and recognised financial assets and financial liabilities are denominated in a currency that is not the entity's functional currency.

Notes to the Financial Statements

For the Year Ended 30 June 2026

Exposure

The consolidated entity's exposure to foreign currency risk at the reporting period, expressed in Australian dollar, was as follows:

	2026		2025	
	USD\$000's	CAD\$000's	USD\$000's	CAD\$000's
Cash and cash equivalents	46,095	12,838	24,971	10,575
Trade and other receivables	28,839	21,113	863	10,118
Other current assets	-	-	-	-
Trade and other payables	(18,859)	(11,768)	-	(3,947)
Net exposure	56,075	22,183	25,834	16,746

Sensitivity

Based on the financial instruments held at 30 June 2026, had the Australian dollar weakened/strengthened by 10% against the US dollar with all other variables held constant, the consolidated entity's post-tax profit and equity for the year would have been \$5,608,000 higher/\$5,608,000 lower (2025: \$2,583,000 higher/\$2,583,000 lower), mainly as a result of foreign exchange gains/losses on translation of US dollar denominated financial instruments as detailed in the above table.

Based on the financial instruments held at 30 June 2026, had the Australian dollar weakened/strengthened by 10% against the Canadian Dollar with all other variables held constant, the consolidated entity's post-tax profit and equity for the year would have been \$2,218,000 higher/\$2,218,000 lower (2025: \$1,675,000 higher/\$1,675,000 lower), mainly as a result of foreign exchange gains/losses on translation of Canadian dollars denominated financial instruments as detailed in the above table.

Exposure to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the consolidated entity's exposure to currency risk.

(ii) Price Risk

The consolidated entity has exposure to equity securities price risk with the exposure, however, being immaterial.

Equity securities price risk arises from investments in equity securities. The equity investments are publicly traded on the Australian Securities Exchange ("ASX"). The price risk for the listed securities is immaterial in terms of a possible impact on profit and loss or total equity and as such a sensitivity analysis has not been completed. The consolidated entity does not have a risk management policy surrounding price risk in place as the Board considers the risk minimal.

(iii) Interest Rate Risk

The consolidated entity is exposed to interest rate risk arising mainly from borrowings and cash balances held. The risk is considered minimal as the consolidated entity's borrowings are immaterial. The consolidated entity does not enter into any specific swaps or hedges to cover any interest rate volatility and does not have a risk management policy surrounding cash flow and interest rate risk as the Board considers these risks to be minimal.

Sensitivity

At 30 June 2026, if interest rates had changed by +/-50 basis points from the year end rates with all other variables held constant, post-tax profit and equity for the year would have been \$524,000 lower/higher (2025: \$348,000 lower/higher), as a result of lower/higher interest income from cash and cash equivalents.

(b) Credit Risk

Credit risk arises from the financial assets of the consolidated entity, which comprise cash and cash equivalents, trade and other receivables and other current assets. The consolidated entity's exposure to credit risk arises from potential default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

Notes to the Financial Statements

For the Year Ended 30 June 2026

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2026\$000's	2025\$000's
Cash and cash equivalents	106,195	79,036
Trade and other receivables	133,928	115,420
Deposits held with banks (note 11)	490	631
	240,613	195,087

Cash and Cash Equivalents

The credit risk on cash and cash equivalents is limited because the consolidated entity's primary bank is rated AA- by an international credit-rating agency.

Trade and Other Receivables

The consolidated entity's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the consolidated entity's customer base, including the default risk of the industry and country in which customers operate, as these factors may have an influence on credit risk.

The consolidated entity trades only with recognised, creditworthy third parties, and as such collateral is not requested nor is it the consolidated entity's policy to securitise its trade and other receivables. All receivables at balance date that are neither past due nor impaired comply with the consolidated entity's policy on credit quality.

It is the consolidated entity's policy that all customers who wish to trade on credit terms are subject to credit verification procedures including an assessment of their financial position, past experience and industry reputation.

In addition, receivable balances are monitored on an ongoing basis with the result that the consolidated entity's exposure to bad debts is minimised.

There are no significant concentrations of credit risk within the consolidated entity. The consolidated entity minimises concentrations of credit risk in relation to trade receivables by undertaking transactions with a number of customers that operate predominantly in the mining and extractive industry sector including major operators in the industry and junior/emerging operators. There are multiple contracts with our significant customers, across a number of their subsidiaries and divisions within those subsidiaries and locations.

Deposits Held With Banks

The credit risk on deposits held with banks are limited as they comprise deposits held with banks with high credit ratings assigned by international credit-rating agencies.

(c) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities. The consolidated entity manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Financing Arrangements

The consolidated entity had access to the following undrawn borrowing facilities at the reporting date:

	2026\$000's	2025\$000's
Leasing facility	5,000	5,000
Standby credit facility	7,113	6,420
Insurance bonds	83,122	65,202
	95,235	76,622

Notes to the Financial Statements

For the Year Ended 30 June 2026

Maturities of Financial Liabilities

The following tables detail the consolidated entity's remaining contractual maturity for its non-derivative financial liabilities.

The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the consolidated entity can be required to pay. The table includes both interest and principal cash flows.

Consolidated - 30 June 2026	Weighted average interest rate %	1 year or less \$000's	Between 1 and 2 years \$000's	Between 2 and 5 years \$000's	Over 5 years \$000's	Total contractual cash flows \$000's	Carrying amount liabilities \$000's
Non-derivatives							
Non-interest bearing							
Trade and other payables	-	26,005	-	-	-	26,005	26,005
Interest bearing							
Finance leases	-	-	-	-	-	-	-
Lease Liabilities	6.59%	5,739	4,988	2,132	532	13,391	11,245
Borrowings	7.85%	1,241	-	-	-	1,241	1,241
		32,985	4,988	2,132	532	40,637	38,490

Consolidated - 30 June 2025	Weighted average interest rate %	1 year or less \$000's	Between 1 and 2 years \$000's	Between 2 and 5 years \$000's	Over 5 years \$000's	Total contractual cash flows \$000's	Carrying amount liabilities \$000's
Non-derivatives							
Non-interest bearing							
Trade and other payables	-	24,184	-	-	-	24,184	24,184
Interest bearing							
Finance leases	-	-	-	-	-	-	-
Lease Liabilities	6.46%	4,840	4,825	6,338	817	16,820	14,959
Borrowings	7.11%	1,460				1,460	1,460
		30,484	4,825	6,338	817	42,464	40,603

In assessing and managing liquidity risks of its derivative financial instruments the consolidated entity considers both contractual inflows and outflows.

New Accounting Standards and Interpretations not yet mandatory or early adopted.

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2026. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Notes to the Financial Statements

For the Year Ended 30 June 2026

3. Critical Accounting Estimates and Assumptions

The consolidated entity makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Impairment Testing of Goodwill

The consolidated entity tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in note 1(i). The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of assumptions. Refer to note 14 for details of these assumptions and the potential impact of changes to the assumptions.

(ii) Service and Equipment Warranties

In accordance with the accounting policy stated in note 1(aa), the consolidated entity has recognised warranty provisions at the end of the financial year in respect of potential claims for rectification work on some of its EPC contracts. Refer to note 21 in relation to the service warranty provisions provided at period end. The amounts provided takes into account the percentage completion of the project, forecast to complete costs plus any close-out obligations and potential contractual liabilities during the warranty period.

(iii) Fixed-Price Contracts

The consolidated entity uses cost inputs to estimate its revenue from fixed-sum contracts. The stage of completion is measured by reference to the contract costs incurred to date compared to the estimated total costs for the contract.

Significant assumptions are required to estimate the total contract costs and the recoverable variations work that will affect the stage of completion and the contract revenue respectively. In making these estimates, the consolidated entity has relied on experience and the best available information.

(iv) Income tax

The consolidated entity is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The consolidated entity recognises liabilities for anticipated tax audit issues based on the consolidated entity's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

(v) Business Combinations – Fair Value of Assets and Liabilities Acquired

Business combinations are initially accounted for on a provisional basis. The fair value of assets acquired, liabilities and contingent liabilities assumed are initially estimated by the consolidated entity taking into consideration all available information at the reporting date. Fair value adjustments on the finalisation of the business combination accounting is retrospective, where applicable, to the period the combination occurred and may have an impact on the assets and liabilities, depreciation and amortisation reported.

4. Segment Information

Management has determined the operating segments based on the reports reviewed by the Board that are used to make strategic decisions.

(a) Description of Segments

Management has determined the operating segments based on the internal reports reviewed by the Board (who are identified as the Chief Operating Decision Maker ("CODM")) that are used to assess performance and allocate resources.

During the period, the Consolidated entity refined its internal reporting structure such that performance is now monitored on a geographic basis. As part of this change, the Group has updated its operating segments and has restated comparative information in accordance with AASB 8 Operating Segments.

The Board assesses the business on a geographic basis and has identified four operating segments; APAC, Africa, Americas and Other, which are reportable operating segments in accordance with the requirements of AASB 8.

Management has determined the operating segments based on the reports reviewed by the Board of Directors that are used to make strategic decisions.

Notes to the Financial Statements

For the Year Ended 30 June 2026

Segment Information

The segment information provided to the Board of Directors for the reportable segments for the year ended 30 June 2026 and 2025 are as follows:

30 June 2026	Asia Pacific \$000's	Africa \$000's	Americas \$000's	Total \$000's
Total segment revenue	218,059	40,749	166,061	424,869
Inter-segment revenue	(22,038)	(5,882)	(22,930)	(50,850)
Revenue from external customers	196,021	34,868	143,131	374,019
Interest income	599	809	350	1,758
Other income	796	862	114	1,772
Total revenue				377,549
Segment profit before tax	17,489	4,727	27,780	49,996
Unallocated:				
Depreciation and amortisation				(3,626)
Share of net profit of associates and joint ventures accounted for using the equity method				5,200
Other unallocated				891
Profit before tax				52,461
Income tax expense				(11,900)
Profit after tax				40,561
Total segment assets	99,848	47,213	100,432	247,492
Intersegment eliminations				(1,452)
Intangibles arising on consolidation				14,915
Unallocated Segment Assets:				
Cash and cash equivalents				3,453
Investments accounted for using the equity method				8,689
Right-of-use assets				3,632
Other non-current assets				4,492
Other unallocated segment assets				12,087
Total assets				293,308
Total assets includes:				
Additions to non-current assets (other than financial assets and deferred tax)	555	573	1,433	2,561

Other unallocated segment liabilities				1,248
Total liabilities as per the consolidated balance sheet				90,610

Notes to the Financial Statements

For the Year Ended 30 June 2026

(c) Segment Revenue

Sales between segments are carried out at arm’s length and are eliminated on consolidation. The revenue from external parties reported to the Board of Directors is measured in a manner consistent with that in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

The entity is domiciled in Australia. The result of its revenue from external customers in Australia is \$155,819,000 (2025: \$125,202,000), and the total of revenue from external customers from other countries is \$218,201,000 (2025: \$208,734,000). Segment revenues are allocated based on the country in which the customer is located. However, it is practically difficult to determine revenue as per the domicile of external customers.

Revenues of approximately \$141,266,000 (2025: \$116,036,000) are derived from the top 3 customers. These revenues are attributable to the Resources segment.

5. Revenue

(a) Disaggregation of Revenue from Contracts with Customers

	2026			2025		
	Engineering & related services \$000's	Construction contracts \$000's	Total \$000's	Engineering & related services \$000's	Construction contracts \$000's	Total \$000's
Asia Pacific	196,021	-	196,021	222,917	9,120	232,037
Americas	127,812	15,319	143,131	53,330	5,246	58,576
Africa	34,867	-	34,867	43,323	-	43,323
Total revenue	358,700	15,319	374,019	319,570	14,366	333,936

Timing of revenue recognition: All revenue from contracts with customers are transferred over time.

(b) Assets and Liabilities Related to Contracts with Customers

	2026 \$000's	2025 \$000's
Asset recognised for costs incurred to fulfil a contract	-	-
Total contract assets	-	-
Advances received for construction contract work	31,301	9,896
Deferred services income	24,096	4,527
Total contract liabilities	55,397	14,423

Significant Changes in Contract Assets and Liabilities

Advances received for construction contract work and deferred services income represent customer payments received in advance of performance (contract liabilities) that are expected to be recognised as revenue in FY2027.

(c) Other income

	2026 \$000's	2025 \$000's
Profit on sale of shares	201	-
Net Fair value loss on financial instruments	(302)	(179)
Rental income	-	281
Sundry income	1,873	3,145
Total other income	1,772	3,247

Notes to the Financial Statements

For the Year Ended 30 June 2026

6. Expenses

Profit before income tax includes the following specific expenses: Depreciation and Amortisation

	2026 \$000's	2025 \$000's
Profit before income tax includes the following specific expenses:		
Depreciation and Amortisation		
Fixtures and fittings	1,674	1,837
Leasehold improvements	901	861
Motor vehicles	63	94
Office premises right-of-use assets	4,233	4,088
Customer contracts	504	-
Computer software	368	65
Total depreciation and amortisation	7,743	6,945
Net foreign exchange (gain)/losses	1,286	2,418
Finance costs		
Interest and finance charges paid/payable on borrowings	216	370
Interest and finance charges paid/payable on lease liabilities	850	832
Total finance costs	1,066	1,202
Share based payments	991	1,032
Defined contribution superannuation expense	6,993	6,912

7. Income Tax Expense

(a) Income Tax Expense

	2026 \$000's	2025 \$000's
Current tax on profits for the year	11,365	18,369
Deferred tax on profits for the year	(1,441)	(1,110)
Adjustments for current tax of prior periods	1,791	(233)
Adjustments for deferred tax of prior periods	185	1,000
	11,900	18,026
Deferred income tax expense/(benefit) included in income tax expense comprises:		
(Increase)/decrease in deferred tax assets (note 15)	932	300
Increase/(decrease) in deferred tax liabilities (note 21)	(2,188)	(190)
	(1,256)	110

Notes to the Financial Statements

For the Year Ended 30 June 2026

(b) Numerical Reconciliation of Income Tax Expense to Prima Facie Tax Payable

	2026 \$000's	2025 \$000's
Profit before income tax expense	52,461	60,505
Tax at the Australian tax rate of 30% (2025: 30%)	15,738	18,152
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:		
Sundry items	678	299
Withholding tax gross-up	(3,797)	-
	12,619	18,451
Adjustments for current tax of prior periods - under/(over) provision of prior year income tax	1,975	767
Difference in overseas tax rates	(1,597)	(596)
Share of net profit of joint ventures accounted for using the equity method	(1,560)	(869)
Others	463	273
Total income tax expense	11,900	18,026

(c) Tax Consolidation

The Company and its 100% owned Australian entities formed a tax consolidated group on 1 July 2013. Members of the tax consolidated group have entered into a tax sharing agreement in order to allocate income tax expense to the wholly owned Australian entities on a pro-rata basis. The agreement provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. At balance date, the possibility of default is remote. The head entity of the tax consolidated group is Lycopodium Limited.

Tax Effect Accounting by Members of the Tax Consolidated Group

Members of the tax consolidated group have entered into a tax funding agreement effective from 1 July 2013. The tax funding agreement provides for the allocation of current taxes to members of the tax consolidated group. Deferred taxes are allocated to members of the tax consolidated group in accordance with the group allocation approach, which is consistent with the principles of AASB 112 Income Taxes.

The allocation of taxes under the tax funding agreement is recognised as an increase/(decrease) in the member entities' intercompany accounts with the tax consolidated group head company, Lycopodium Limited. In this regard, the Company has assumed the benefit of tax losses from the member entities as of the balance date. The nature of the tax funding agreement is such that no tax consolidated contributions by or distributions to participant's equity are required.

8. Current Assets – Cash and Cash Equivalents

	2026 \$000's	2025 \$000's
Cash at bank and in hand	106,195	79,036

Risk Exposure

The consolidated entity's exposure to interest rate risk is discussed in note 2. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of cash and cash equivalents mentioned above.

Notes to the Financial Statements

For the Year Ended 30 June 2026

9. Current Assets – Trade and Other Receivables

	2026 \$000's	2025 \$000's
Trade receivables	94,170	67,764
Allowance for expected credit loss (a)	(1,879)	(2,471)
	92,291	65,293
GST and other receivables	41,601	50,046
Cash advanced to employees	36	81
	41,637	50,127
	133,928	115,420

(a) Allowance for Expected Credit Loss

Movements in allowance for expected credit loss of trade receivables are as follows:

	2026 \$000's	2025 \$000's
Balance 1 July	2,471	730
Additional provisions recognised	125	1,827
Unused amount reversed	(711)	-
Exchange difference	(6)	(86)
Balance 30 June	1,879	2,471

There are no expected credit losses for other classes of Trade and other receivables.

The expected credit loss for trade receivables as at 30 June 2026 and 30 June 2025 are as follows:

	Current \$000's	More than 30 days past due \$000's	More than 60 days past due \$000's	More than 90 days past due \$000's	Total \$000's
30 June 2026					
Expected credit loss rate	0%	0%	0%	20.8%	-
Gross carrying amount	75,883	6,212	3,032	9,044	94,170
Lifetime expected credit loss	-	-	-	1,879	1,879

	Current \$000's	More than 30 days past due \$000's	More than 60 days past due \$000's	More than 90 days past due \$000's	Total \$000's
30 June 2025					
Expected credit loss rate	0%	0%	0%	51.3%	-
Gross carrying amount	58,568	4,152	226	4,818	67,764
Lifetime expected credit loss	-	-	-	2,471	2,471

(b) Risk Exposure

Information about the consolidated entity's exposure to foreign exchange risk and interest rate risk is provided in note 2.

(c) Fair Value and Credit Risk

Due to the short-term nature of these receivables, their carrying amount is assumed to approximate their fair value.

The maximum exposure to credit risk at the reporting date is the fair value of each class of receivables mentioned above.

The consolidated entity does not hold any collateral as security. Refer to note 2 for more information on the risk management policy of the consolidated entity.

Notes to the Financial Statements

For the Year Ended 30 June 2026

10. Current Assets – Inventories

	2026 \$000's	2025 \$000's
Consumables	201	-

11. Current Assets – Other Current Assets

	2026 \$000's	2025 \$000's
Prepayments	5,714	5,401
Deposits with licensed banks*	490	631
Other current assets	117	98
	6,321	6,130

* Deposit with licensed banks are security/bonds on the various properties leased by the consolidated entity

12. Non-Current Assets – Property, Plant and Equipment

Year ended 30 June 2026	Fixtures and fittings \$000's	Motor vehicles \$000's	Leasehold improvements \$000's	Leased plant and equipment \$000's	Total \$000's

Notes to the Financial Statements

For the Year Ended 30 June 2026

13. Non-Current Assets – Right-of-Use Assets

	2026 \$000's	2025 \$000's
Land and buildings – right-of-use	30,048	30,079
Accumulated depreciation	(20,694)	(17,014)
Net book amount	9,354	13,065

	2026 \$000's	2025 \$000's
Right-of-Use Assets		
Balance 1 July	13,064	10,471
Additions	858	6,533
Depreciation	(4,233)	(4,088)
Currency translation differences during the year	(335)	148
Balance 30 June	9,354	13,064

Right of Use Assets includes Office space and Vehicle lease.

Additions to the right-of-use assets during the year were \$858,000 (2025: \$6,533,000).

The consolidated entity leases office space under agreements of between three to eight years with, in some cases, the option to extend. The leases have various escalation clauses. On renewal, the terms of the leases are renegotiated.

The consolidated entity leases office equipment and motor vehicles under agreements of between two and five years. These leases are either short-term or low-value, so have been expensed as incurred and not capitalised as right-of-use assets.

14. Non-Current Assets – Intangible Assets

Year ended 30 June 2026	Goodwill \$000's	Software \$000's	Customer contracts \$000's	Total \$000's

Net book amount	6,207	57	-	6,264

(a) Impairment Tests for Goodwill

Goodwill is allocated to the consolidated entity cash-generating units (CGUs) identified according to business segment and country of operation.

A segment-level summary of the goodwill allocation is presented below.

2026	Australia \$000's	Africa \$000's	SAXUM \$000's	Total \$000's
Minerals	3,623	2,465	6,690	12,778
Metallurgical	119	-	-	119
	3,742	2,465	6,690	12,897

2025	Australia \$000's	Africa \$000's	SAXUM \$000's	Total \$000's
Minerals	3,623	2,465	-	6,088
Metallurgical	119	-	-	119
	3,742	2,465	-	6,207

(b) Key Assumptions Used for Value-in-Use Calculations

The recoverable amount of each CGU within the business segment is determined on the basis of value-in-use (VIU). In the Minerals CGU, our experience and strength in the gold sector and opportunities in sustaining capital works projects underpins the forecast growth both internationally and domestically.

During the year, as a consequence of the SAXUM acquisition, the consolidated entity has a new SAXUM CGU.

The following describes the assumptions on which management has based its cash flow projections when determining value in use:

Growth Rate

The growth rate represents a steady indexation rate which does not exceed management's expectations of the long-term average growth rate for the business in which each CGU operates. The rate applied in the cash flow projection is for Australia 2% (2025: 2%) , Africa 2% (2025: 2%) and for SAXUM 8-10% (2025: n/a).

Discount Rate

For the Australian CGUs, the pre-tax discount rate applied to cash flow projections is 7.67% (2025: 6.54%) and for the Minerals CGUs in Africa CGU, the pre-tax discount rate is 13.39% (2025: 13.96%). Lastly, the pre-tax discount for SAXUM CGU was 13.00% (2025: n/a).

The discount rates mentioned above reflect management's estimate of the time value of money and the consolidated entity's weighted average cost of capital and the risk-free rate.

Notes to the Financial Statements

For the Year Ended 30 June 2026

Cash Flows

Value-in-use calculations use cash flow projections from approved budgets based on past performance and expectations for the future covering a five-year period.

Revenue

The value-in-use model is based on the budget approved by the Board. The forecast budget process was developed based on revenue expectations for the year built around existing customer contracts along with the potential to develop new markets and sustain growth.

Sensitivities

The Board has performed sensitivities around all key assumptions disclosed above. There are no fluctuations to any of the assumptions that could reasonably occur that would cause the recoverable amount of any CGUs to be equivalent to that of the carrying amount of the CGUs' assets.

The recoverable amount of the SAXUM CGU exceeded its carrying amount at 30 June 2026. Sensitivity analysis was performed over the key assumptions used in the value-in-use model. The analysis indicated that the discount rate would need to increase by approximately 8.3%, or forecast revenue growth assumptions would need to be approximately negative 15–20%, for the recoverable amount to equal the carrying value of the CGU. Management therefore considers the SAXUM CGU to have adequate headroom and does not believe that a reasonably possible change in a key assumption would result in an impairment.

(c) Cash Flow Assumptions

Minerals and Metallurgical

Apart from the considerations described in determining the value-in-use of the cash-generating units described above, the Board is not currently aware of any other probable changes that would necessitate changes in its key estimates.

15. Non-Current Assets – Deferred Tax Assets

	2026 \$000's	2025 \$000's
The balance comprises temporary differences attributable to:		
Employee benefits	3,288	5,104

A description of the consolidated entity's financial instrument risks, including risk management objectives and policies is given in note 2.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(b) Borrowings

Borrowings include the following financial liabilities:

	2026			2025		
	Current \$000's	Non-Current \$000's	Total \$000's	Current \$000's	Non-Current \$000's	Total \$000's
Secured						
Other Loans	1,241	-	1,241	1,460	-	1,460
Total Secured borrowings	1,241	-	1,241	1,460	-	1,460
Unsecured						
Other Loans	-	-	-	-	-	-
Total Unsecured borrowings	-	-	-	-	-	-
Total borrowings	1,241	-	1,241	1,460		1,460

All borrowings are denominated in AUD.

Bank borrowings are secured by plant and equipment owned by the consolidated entity. Current interest rates are variable and average 7.85% (2025: 7.11%). The carrying amount of bank borrowings is considered to be a reasonable approximation of fair value.

(c) Fair Value Measurement

Financial assets and liabilities measured at fair value in the Statement of Financial Position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: unobservable inputs for the asset or liability.

The following table shows the levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis at 30 June 2026 and 30 June 2025.

2026	Level 1 \$000's	Level 2 \$000's	Level 3 \$000's	Total \$000's
Financial assets				
Listed Securities	560	-	-	560
Net fair value	560	-	-	560

2025	Level 1 \$000's	Level 2 \$000's	Level 3 \$000's	Total \$000's
Financial assets				
Listed Securities	2,606			2,606
Net fair value	2,606			2,606

There were no transfers between Level 1 and Level 2 in 2026 and 2025.

Movements	2026 \$000's	2025 \$000's
Listed Securities		
Balance 1 July	2,606	2,781
Additions	-	-
Revaluation	144	(175)
Disposals	(2,190)	-
Balance 30 June	560	2,606

Notes to the Financial Statements

For the Year Ended 30 June 2026

Measurement of Fair Value of Financial Instruments

The valuation techniques used for instruments categorised in Level 2 are described below:

Foreign Currency Forward Contracts (Level 2)

The consolidated entity's foreign currency forward contracts are not traded in active markets. These have been fair valued using observable forward exchange rates and interest rates corresponding to the maturity of the contract. The effects of non-observable inputs are not significant for foreign currency forward contracts.

17. Non-Current Assets – Investments Accounted for Using the Equity Method

	2026 \$000's	2025 \$000's
Investment in joint ventures	3,750	929
Investment in associates	4,939	4,957
	8,689	5,886
	2026 \$000's	2025 \$000's
Share of net profit of joint ventures	3,621	736
Share of net profit of associates	1,579	2,160
	5,200	2,896

(a) Investment in Joint Ventures

The consolidated entity has the following joint ventures:

Name of Joint Venture	Country of incorporation & principal place of business	Principal activities	Proportion of ownership interest held by the consolidated entity	
			2026	2025
Mondium Pty Ltd ('Mondium')	Australia	Engineering and construction services	40%	40%
Orway IQ Pty Ltd ('OIQ') Incorporated in May 2019	Australia	Remote optimisation consulting services	50%	50%
LPN Dry Mining Services (Pty) Ltd Incorporated July 2025	Namibia	Engineering and consulting services	50%	-

Summarised financial information of the joint venture that is material to the consolidated entity is set out below.

The Consolidated entity's share of the results of its principal joint ventures:	2026 \$000's	2025 \$000's
(Loss)/profit from continuing operation	2,197	735
Other comprehensive income	-	-
Total comprehensive income	2,197	735
Carrying amount of the Consolidated entity's interest in joint ventures	2,325	929

Notes to the Financial Statements

For the Year Ended 30 June 2026

Joint ventures summarised Statement of Financial Position	2026 \$000's	2025 \$000's
Cash and cash equivalents	24,555	21,270
Current assets	24,563	29,290
Non-current assets	-	1,788
Total assets	24,563	31,078
Current liabilities	(18,749)	(25,921)
Non-current liabilities	-	(2,835)
Total liabilities	(18,749)	(28,756)
Net assets	5,814	2,322
Consolidated entity's share of joint ventures net assets	2,325	929

Included in the carrying amount of the Company's interest in joint venture is dividends received of \$800,000 (2025: Nil).

(b) Investment in Associates

Name of Associate	Country of incorporation & principal place of business	Principal activities	Proportion of ownership interest held by the consolidated entity	
			2026	2025
ECG Engineering Pty Ltd	Australia	Electrical engineering services	31%	31%
Kholo Marine & Minerals (Pty) Ltd Incorporated July 2019	South Africa	Engineering and consulting services	49%	49%

The consolidated entity's share of the results of its principal associates	2026 \$000's	2025 \$000's
Profit from continuing operations	1,672	1,774
Other comprehensive income	-	-
Total comprehensive income	1,672	1,774

Carrying amount of the consolidated entity's interest in associates	4,536	4,326
---	-------	-------

Included in the carrying amount of the Company's interest in associate is dividends received of \$1,596,500 (2025: \$1,053,751).

Associate summarised Statement of Financial Position	2026 \$000's	2025 \$000's
Cash and cash equivalents	3,382	8,826
Current assets	21,226	19,184
Non-current assets	2,048	1,060
Total assets	23,274	20,244
Current liabilities	(6,878)	(6,289)
Non-current liabilities	(1,763)	-
Total liabilities	(8,641)	(6,289)
Net assets	14,633	13,955
Consolidated entity's share of associate net assets	4,536	4,326

Notes to the Financial Statements

For the Year Ended 30 June 2026

18. Current Liabilities – Trade and Other Payables

	2026 \$000's	2025 \$000's
Trade payables	9,502	4,511
Goods and services tax (GST) payable	11,959	15,578
Sundry creditors and accrued expenses	16,503	19,673
	37,964	39,762

Included in the above are financial liabilities of \$26,005,000 (2025: \$24,184,000).
Details of the consolidated entity's exposure to foreign exchange risk is provided in note 2.

19. Current Liabilities – Employee Benefits

	2026 \$000's	2025 \$000's
Employee benefit obligations	10,528	10,762
	10,528	10,762

Amounts not Expected to be Settled Within the Next 12 Months

Employee benefit obligations include accruals for annual leave and unconditional entitlements of long service leave. The entire obligation is presented as current, since the consolidated entity does not have an unconditional right to defer settlement. However, based on past experience, the consolidated entity does not expect all employees to take the full amount of accrued leave within the next 12 months.

The following amounts reflect leave that is not expected to be taken within the next 12 months:

	2026 \$000's	2025 \$000's
Annual leave obligation expected to be settled after 12 months	1,556	2,130
Long service leave obligation expected to be settled after 12 months	2,489	2,273
	4,045	4,403

20. Current Liabilities – Provisions

	2026 \$000's	2025 \$000's
Service and equipment warranties	2,558	3,491

(a) Movements in Provisions

Movements in each class of provision during the financial year, other than employee benefits, are set out below:

Movements	Service and equipment warranties \$000's	Total \$000's
Balance 1 July	3,491	3,491
Provisions reversed	(2,147)	(2,147)
Provision recognised	1,395	1,395
Exchange differences	(181)	(181)
Balance 30 June	2,558	2,558

The consolidated entity recognises service and equipment warranty provisions in accordance with its current policy. The amount provided takes into account the percentage completion of the project, forecast to complete costs plus any close-out obligations and potential contractual liabilities during the warranty period.

Notes to the Financial Statements

For the Year Ended 30 June 2026

21. Non-Current Liabilities – Deferred Tax Liabilities

	2026 \$000's	2025 \$000's
The balance comprises temporary differences attributable to:		
Other assets	801	930
Depreciation & amortisation	914	916
Right-of-use assets	1,895	2,504
	3,610	4,350
Set-off of deferred tax liabilities pursuant to set-off provisions (note 15)	(3,610)	(4,350)
Net deferred tax liabilities	-	-
Deferred tax liabilities expected to be settled within 12 months	217	239
Deferred tax liabilities expected to be settled after more than 12 months	3,393	4,111
	3,610	4,350

Movements	Depreciation & amortisation \$000's	Other assets \$000's	Right-of- use assets \$000's	Total \$000's
As at 01 July 2025	930	916	2,504	4,350
Charged/(credited) – profit or loss	(16)	(1,564)	(608)	(2,188)
Additions through business combinations (Note 33)	-	1,449	-	1,449
At 30 June 2026	914	801	1,895	3,610

Movements	Depreciation & amortisation \$000's	Other provisions \$000's	Right-of- use assets \$000's	Total \$000's
As at 01 July 2024	972	530	2,657	4,160
Charged/(credited) – profit or loss	(42)	386	(153)	190
At 30 June 2025	930	916	2,504	4,350

22. Non-Current Liabilities – Employee Benefits

	2026 \$000's	2025 \$000's
Employee benefits – long service leave	2,489	2,273

23. Issued Capital

(a) Share Capital

	2026 Shares	2025 Shares	2026 \$000's	2025 \$000's
Fully paid Ordinary shares	39,740,226	39,740,226	20,855	20,855
Less: Treasury shares held by Employee Share Trust	(1,035,724)	(890,313)	(7,391)	(6,639)
Add: Exercise of Shares through Employee Share Trust	590,673	408,556	2,606	1,775
Less: Loan funded shares to senior management	(175,000)	(375,000)	(816)	(2,031)
Balance at the end of the period	39,120,175	38,883,469	15,254	13,960

* Movement in treasury shares held by Employee Share Trust during the year ended 30 June 2026 amounted to \$752,000 (2025: \$2,295,000)
** Movement in Loan Funded Shares to Senior management during the year ended 30 June 2026 amounted to \$1,215,000 (2025: (\$124,000)). Refer note 1 (ah) for accounting policy on accounting for Employee Share Trust. Refer note 37(b) for further details on loan funded shares.

Notes to the Financial Statements

For the Year Ended 30 June 2026

(b) Ordinary Shares

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

(c) Capital Risk Management

The consolidated entity’s objectives when managing capital are to safeguard its ability to continue as a going concern, to continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the consolidated entity monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including ‘borrowings’ and ‘trade and other payables’ as shown in the Consolidated Statement of Financial Position) less cash and cash equivalents. Total capital is calculated as ‘equity’ as shown in the Consolidated Statement of Financial Position (including non-controlling interests) plus net debt.

During 2026, the consolidated entity’s strategy was to maintain a gearing ratio of less than 40%. The gearing ratio at 30 June 2026 and 30 June 2025 was as follows:

	2026 \$000’s	2025 \$000’s
Total borrowings (including payables)	42,771	41,222
Less: cash and cash equivalents	(107,195)	(79,036)
Net debt	(64,424)	(37,814)
Total equity	171,260	150,473
Total capital	106,836	112,659
Gearing ratio	(60%)	(34%)

24. Reserves

	2026 \$000’s	2025 \$000’s
Performance rights reserve	4,216	3,747
Foreign currency translation reserve	(11,155)	(5,981)
	(6,939)	(2,234)

Movements	2026 \$000’s	2025 \$000’s
Share-based Payments Reserve		
Balance 1 July	3,747	2,859
Performance rights plan expense	991	918
Loan funded shares	-	114
Transfer to share capital – exercise of rights	(831)	(492)
Tax effect of transfer to cash to employee share trust	309	348
Balance 30 June	4,216	3,747
Foreign Currency Translation Reserve		
Balance 1 July	(5,981)	(8,472)
Currency translation differences arising during the year	(5,174)	2,491
Balance 30 June	(11,155)	(5,981)

Notes to the Financial Statements

For the Year Ended 30 June 2026

(a) Nature and Purpose of Reserves

(i) Share-based Payments Reserve

The Share-based Payment Reserve is used to recognised the fair value of rights issued to certain Directors or employees during the year. This also includes reserve for other share-based payments.

(ii) Foreign Currency Translation Reserve

Exchange differences arising on translation of foreign controlled entities are recognised in other comprehensive income as described in note 1 (e) and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.

25. Retained Earnings

	2026 \$000’s	2025 \$000’s
Balance 1 July	140,139	117,791
Profit for the year	40,169	42,218
Dividends paid or payable	(18,678)	(19,870)
Balance 30 June	161,630	140,139

26. Non-Controlling Interests

	2026 \$000’s	2025 \$000’s
Share capital	13	13
Reserves	4	4
Non-controlling interest on acquisition	2,440	(288)
Retained earnings	(1,730)	(1,122)
	727	(1,392)

27. Dividends

(a) Ordinary Shares

	2026 \$000’s	2025 \$000’s
Final dividend for the year ended 30 June 2025 of 25.0 cents (2024: 40.0 cents) per fully paid share paid on 3 October 2025 (2024: 6 October 2024) Fully franked based on tax paid at 30% (2024: 30%)	9,935	15,896
Interim dividend for the year ended 30 June 2026 of 22.0 cents (2025: 10.0 cents) per fully paid share paid on 2 April 2026 (2025: 3 April 2025) Fully franked based on tax paid at 30% (2025: 30%)	8,743	3,974
Total dividends provided for or paid	18,678	19,870

(b) Dividends Not Recognised at the End of the Reporting Period

	2026 \$000’s	2025 \$000’s
In addition to the above dividends, since year end the Directors have recommended the payment of a final dividend of 37.0 cents per fully paid ordinary share (2025: 25.0 cents), fully franked based on tax paid at 30%. The aggregate amount of the proposed dividend expected to be paid on 3 October 2026 out of retained earnings at 30 June 2026, but not recognised as a liability at year end, is:	14,704	9,935

Notes to the Financial Statements

For the Year Ended 30 June 2026

(c) Franked Dividends

	2026 \$000's	2025 \$000's
Franking credits available for subsequent reporting periods based on a tax rate of 30% (2025: 30%)	14,030	18,066

The above amounts are calculated from the balance of the franking account as at the end of the reporting year, adjusted for franking credits and debits that will arise from the settlement of liabilities or receivables for income tax and dividends after the end of the year:

- (a) Franking credits that will arise from the payment of the amount of the provision for income tax
- (b) Franking debits that will arise from the payment of dividend recognised as a liability at the reporting date, and
- (c) Franking credits that will arise from the receipt of dividend recognised as receivables at the reporting date.

The consolidated amounts include franking credits that would be available to the parent entity if distributable profits of subsidiaries were paid as dividends.

The impact on the franking account of the dividend recommended by the Directors since year end, but not recognised as a liability at year end, will be a reduction in the franking account of \$6,302,000 (2025: \$4,258,000).

28. Remuneration of Auditors

During the year the following fees were paid or payable for services provided by the auditor of the parent entity, its related practices and non-related audit firms:

(a) RSM Australia

	2026 \$	2025 \$
Audit and other assurance services		
Audit and review of financial reports	351,000	318,000
Other services		
Sustainability reporting review	40,000	-
Total remuneration	391,000	318,000

Non-RSM Australia

	2026 \$	2025 \$
Audit and other assurance services		
Audit and review of financial reports	148,926	118,115
Taxation services		
Tax compliance services (including income tax returns)	176,997	126,506
Other services		
Other services	116,341	118,390
Total remuneration of non-RSM Australia audit firms	442,264	363,011
Total remuneration	833,264	681,011

Notes to the Financial Statements

For the Year Ended 30 June 2026

29. Contingencies

The consolidated entity had contingent liabilities at 30 June 2026 and 30 June 2025 in respect of:

(a) Contingent Liabilities

(i) Guarantees

Guarantees are given in respect of rental bonds for \$5,537,000 (2025: \$6,230,000)

These guarantees may give rise to liabilities in the event that the consolidated entity defaults on its obligations under the terms of the lease agreement for its premises at 1 Adelaide Terrace, East Perth; 757 Ann Street, Fortitude Valley; 253-269 Wellington Road, Mulgrave; 138-140 Beaumont Street, Hamilton; and Golf Park, Cape Town, South Africa.

Insurance bonds of \$16,878,000 are provided in respect of performance and defects warranty as at 30 June 2026 (2025: \$14,798,000).

No material losses are anticipated in respect of any of the above contingent liabilities (2025: Nil).

30. Commitments

(a) Capital Commitments

The consolidated entity has contractual commitments to acquire the remaining 40% equity interest in SAXUM. This comprises a 25% interest to be acquired within 60 months of completion of Tranche 1 and a further 15% interest to be acquired within 24 months of completion of Tranche 2, in accordance with the acquisition agreement. The consideration payable for the future tranche acquisitions is contingent on the performance of the SAXUM entities over the relevant measurement periods and will be determined in accordance with the terms of the acquisition agreement (2025: Nil).

31. Related Party Transactions

(a) Parent Entity

The parent entity within the consolidated entity is Lycopodium Limited, which is incorporated in Australia.

(b) Subsidiaries

Interests in subsidiaries are set out in note 32.

(c) Key Management Personnel

	2026 \$000's	2025 \$000's
Short-term employee benefits	3,430	3,354
Post-employment benefits	158	125
Share-based payments	398	351
	3,986	3,830

Detailed remuneration disclosures are provided in the Remuneration Report on pages 16 to 21.

No limited recourse loan funded shares were issued during the current financial year to any of the Directors or key management personnel (2025: Nil shares). The limited recourse loan funded shares balance as at end of FY2026 relating to Justine Campbell was \$215,528 (2025: \$229,028) for 50,000 shares (2025: 50,000 shares) and Karl Cicanese was \$ Nil (2025: \$1,136,700) for Nil shares (2025: 200,000 shares).

(d) Transactions with Other Related Parties

The following transactions occurred with related parties:

	2026 \$000's	2025 \$000's
Sales of Goods and Services to associates and joint ventures	2,377	7,863
Purchases of Goods and Services from associates	26,522	31,933

Notes to the Financial Statements

For the Year Ended 30 June 2026

(e) Outstanding Balances Arising from Sales/Purchases of Goods and Services

The following balances are outstanding at the end of the reporting year in relation to transactions with related parties:

	2026 \$000's	2025 \$000's
Current Receivables Associates and joint ventures	1	774
Current PayablesAssociates	1,826	1,524

(f) Loans to/from Related Parties

Movements	2026 \$000's	2025 \$000's
Loans to Joint ventures		
Balance 1 July	-	-
Loans advanced	-	-
Repayments made	-	-
Balance 30 June	-	-
Loans from Joint ventures		
Balance 1 July	-	-
Loans advanced	-	4,800
Repayments received	-	(4,800)
Balance 30 June	-	-

There is no allowance account for impaired receivables in relation to any outstanding balances, and no expense has been recognised in respect of impaired receivables due from related parties.

(g) Terms and Conditions

Purchases and sales of goods and services with statutory joint ventures are made at cost.
Loans advanced to the joint venture is repayable within 12 months. Interest is payable on the loan at a rate of 2.05% per annum.
Outstanding balances are unsecured and are repayable in cash.

Notes to the Financial Statements

For the Year Ended 30 June 2026

32. Subsidiaries

(a) Material Subsidiaries

The consolidated financial report incorporates the assets, liabilities and results of the following principal subsidiaries in accordance with the accounting policy described in note 1(b).

Name of Entity	Country of incorporation / principal activity	Class of shares	Equity holding	
			2026 %	2025 %
Lycopodium (APAC) Pty Ltd	Australia ⁽¹⁾	Ordinary	100	100
Lycopodium Process Industries Pty Ltd	Australia ⁽¹⁾	Ordinary	100	100

(1) Engineering, procurement, construction management services
(2) Offshore project support services

Notes to the Financial Statements

For the Year Ended 30 June 2026

33. SAXUM Acquisition

On 3 July 2025, Lycopodium Limited completed the acquisition of a 60% controlling interest in SAXUM Ingenieria S.A., SAXUM Consultoria e Engenharia Ltda, SAXUM Engineering Pty Ltd and SAXUM Engineering LLC (collectively, SAXUM), for total cash consideration of \$10,783,000. SAXUM is a multi-disciplinary engineering and project management services company, providing services to the mineral processing, cement & lime, manufacturing & infrastructure and oil & gas sectors. The acquisition of the four SAXUM entities has been accounted for as a single business combination, as all entities were negotiated and acquired under one integrated contractual arrangement. The acquisition forms part of the Consolidated entity's strategy to expand its footprint in the Americas.

During the measurement period, the consolidated entity completed its assessment of the fair values of the identifiable assets and liabilities acquired. As a result, the provisional amounts disclosed at 31 December 2025 have been finalised. The final purchase price allocation is presented below:

Fair value of identifiable net assets acquired	\$000's
Cash and cash equivalents	2,112
Trade receivables	3,601
Other assets	3,458
Plant and equipment and software	1,030
Customer contracts	2,522**
Deferred tax asset	352
Trade payables	(4,740)
Deferred tax liability	(1,449)
Employee benefits	(65)
Net assets acquired	6,821
Less: non-controlling interests	(2,728)
Identifiable net assets acquired attributable to Lycopodium	4,093
Goodwill recognised on acquisition	6,690
Total consideration transferred	10,783*

* Cash consideration settled by paying US\$ 7,085,000.

** During the measurement period, the provisional fair value of identifiable intangible assets was finalised. Accordingly, the acquisition-date fair value of identifiable intangible assets was revised from \$8,831,000 to \$2,522,000, with the resulting adjustment recognised in goodwill and deferred tax in accordance with AASB 3 Business Combinations. The change fair value was mainly on account of change in valuation methods adopted in deriving the customer contracts.

The goodwill recognised represents the expected benefits arising from future growth opportunities, assembled workforce, technical expertise, geographic presence in North and South America, and other synergies that do not qualify for separate recognition as identifiable intangible assets.

Cash used to acquire business, net of cash acquired	\$000's
Consideration transferred	10,783
Less: cash and cash equivalents acquired	(2,112)
Net cash outflow on acquisition	8,671

The trade receivables acquired of \$3.601 million are expected to be fully recoverable. Acquisition-related costs were immaterial and have been recognised in profit or loss as incurred.

34. Events Occuring After the Reporting Period

Subsequent to year end the Directors have recommended the payment of a final dividend on ordinary shares in respect of the 2026 financial year. The total amount of the dividend is \$14,703,884 (2025: \$9,935,057), which represents a fully franked dividend of 37.0 (2025: 25.0) cents per fully paid ordinary share.

With the exception of the above, no other matter or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect:

- (a) The consolidated entity's operations in future financial years, or
- (b) The results of those operations in future financial years, or
- (c) The consolidated entity's state of affairs in future financial years.

Notes to the Financial Statements

For the Year Ended 30 June 2026

35. Reconciliation of Profit After Income Tax to Net Cash Inflow from Operating Activities

	2026 \$000's	2025 \$000's
Profit for the year	40,561	42,479
Depreciation and amortisation	7,743	6,945
Non-cash employee benefits expense - share-based payments	991	1,032
Share of net profit of associate and joint venture accounted for using the equity method	(5,200)	(2,896)
Net fair value (gains)/loss from financial instruments	302	(175)
Other non-cash items (includes warranty expenses for the period)	(363)	3,180
Change in operating assets and liabilities:		
Increase in trade debtors and other receivables	(18,508)	(7,089)
(Increase)/decrease in inventories	(201)	533
Increase in deferred tax assets	(645)	(110)
Decrease in other operating assets	976	(2,131)
Increase in trade creditors	(4,991)	(15,839)
Increase in contract liabilities	40,974	3,870
Decrease in tax liabilities	(2,267)	(1,864)
Increase in other provisions	(17)	9,276
Net cash (outflow)/inflow from operating activities	59,356	37,212

(a) Non-Cash Investing and Financing Activities

	2026 \$000's	2025 \$000's
Additions to the right-of-use assets	858	6,533
Leasehold improvements - lease make good	608	928
Shares issued under employee share plan	(831)	(492)

(b) Changes in Liabilities Arising From Financing Activities

Consolidated	Borrowings \$000's	Lease Liability \$000's	Total \$000's
Balance as at 01 July 2025	1,460	14,959	16,419
Net Cash used in Financing Activities	(330)	(3,744)	(4,074)
Acquisition of leases	-	858	858
Finance costs for the period	-	(812)	(812)
Exchange differences	111	(16)	95
Balance as on 30 June 2026	1,241	11,245	12,486

Notes to the Financial Statements

For the Year Ended 30 June 2026

36. Earnings Per Share

(a) Basic Earnings Per Share

	2026 Cents	2025 Cents
Basic earnings per share attributable to the ordinary equity holders of the consolidated entity	101.1	106.2

(b) Diluted Earnings Per Share

	2026 Cents	2025 Cents
Diluted earnings per share attributable to the ordinary equity holders of the consolidated entity	101.1	106.2

(c) Reconciliation of Earnings used in Calculating Earnings Per Share

	2026 \$000's	2025 \$000's
For Basic Earnings Per Share		
Profit attributable to the ordinary equity holders of the consolidated entity used in calculating basic earnings per share	40,169	42,218
For Diluted Earnings Per Share		
Profit attributable to the ordinary equity holders of the consolidated entity used in calculating diluted earnings per share	40,169	42,218

(d) Weighted Average Number of Shares Used as Denominator

	2026 Shares	2025 Shares
Weighted average number of ordinary shares used as the denominator in calculating basic earnings per share	39,740,226	39,740,226
Adjustments for calculation of diluted earnings per share: Performance rights	-	-
Weighted average number of ordinary and potential ordinary shares used as the denominator in calculating diluted earnings per share	39,740,226	39,740,226

37. Share-Based Payments

(a) Incentive Performance Rights Plan

Performance rights were granted to certain employees and Executive Directors during the year under the Lycopodium Group Performance Rights Plan as approved at the Annual General Meeting on 13 November 2025. The rights were designed to give incentive to the employees and Executive Directors to provide dedicated and ongoing commitment and effort to the consolidated entity and aligning the interest of both employees and shareholders.

Notes to the Financial Statements

For the Year Ended 30 June 2026

Set out below are summaries of rights granted under the plan:

2026		Exercise Price	Balance at start of the year	Granted during the year	Exercised during the year	Forfeited during the year	Balance at end of the year
Grant date	Expiry date		Number	Number	Number	Number	Number
19 November 2021	18 November 2026	\$0.00	7,035	-	-	-	7,035
16 November 2022	15 November 2027	\$0.00	194,355	-	(182,117)	-	12,238
14 November 2023	13 November 2028	\$0.00	147,822	-	-	(13,035)	134,787
12 November 2024	11 November 2029	\$0.00	132,544	-	-	(10,883)	121,661
13 November 2025	13 November 2030	\$0.00	-	145,409	-	(7,956)	137,453
			481,756	145,409	(182,117)	(31,874)	413,174

2025		Exercise Price	Balance at start of the year	Granted during the year	Exercised during the year	Forfeited during the year	Balance at end of the year
Grant date	Expiry date		Number	Number	Number	Number	Number
19 November 2021	18 November 2026	\$0.00	127,139	-	(120,104)	-	7,035
16 November 2022	15 November 2027	\$0.00	194,355	-	-	-	194,355
14 November 2023	13 November 2028	\$0.00	147,822	-	-	-	147,822
12 November 2024	11 November 2029	\$0.00	-	132,544	-	-	132,544
			469,316	132,544	(120,104)	-	481,756

Rights exercised during the financial year 182,117 (2025: 120,104).

The weighted average remaining contractual life of rights outstanding at the end of the financial year was 3.3 years (2025: 2.9).

For the rights granted during the current financial year, the valuation model inputs used to determine the fair value at the grant date, are as follows:

Grant date	Expiry date	Share price at grant date	Exercise Price	Expected volatility	Dividend yield	Risk-free interest rate	Fair value at grant date
13 November 2025	13 November 2030	\$13.45	\$0.00	30%	2.37%	3.73%	\$11.09

(b) Loan funded shares

During FY2026, no limited recourse loan funded shares were issued (2025: 25,000).

The share-based payments expense recognised on account of this grant is \$ nil (2025: \$ 114,173).

(c) Expenses Arising from Share-Based Payment Transactions

Total expenses arising from share-based payment transactions recognised during the period as part of employee benefit expenses were as follows:

	2026 \$000's	2025 \$000's
Rights issued under the Incentive Performance Rights Plan	991	918
SBP relating to loan funded shares	-	114
	991	1,032

Notes to the Financial Statements

For the Year Ended 30 June 2026

38. Parent Entity Information

(a) Summary Financial Information

The individual financial report for the parent entity shows the following aggregate amounts:

Statement of Financial Position	2026 \$000's	2025 \$000's
Current assets	5,691	6,626
Non-current assets	59,869	52,169
Total assets	65,560	58,795
Current liabilities	2,001	(458)
Non-current liabilities	-	-
Total liabilities	2,001	(458)
Net assets	63,561	58,337
Retained earnings	43,503	41,546
Contributed equity	15,254	13,960
Performance rights reserve	4,804	3,747
Shareholders' Equity	63,561	59,253
Profit after income tax	19,609	28,008
Total comprehensive income	19,609	28,008

(b) Guarantees Entered into by the Parent Entity

In 2018, the parent entity entered an arrangement with an insurer for a standby insurance bond facility of \$80.0m. In return, the parent entity and Lycopodium Minerals Pty Ltd jointly executed a cross guarantee and indemnity as security for the facility.

(c) Contingent Liabilities of the Parent Entity

The parent entity did not have any contingent liabilities as at 30 June 2026 or 30 June 2025.

(d) Contractual Commitments for the Acquisition of Property, Plant or Equipment

The parent entity did not have any contractual commitments for the acquisition of property, plant and equipment as at 30 June 2026 or 30 June 2025.

(e) Significant accounting policies

The accounting policies of the parent entity are consistent with those of the consolidated entity, as disclosed in note 1, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment, in the parent entity.
- Investments in associates are accounted for at cost, less any impairment, in the parent entity.
- Dividends received from subsidiaries are recognised as other income by the parent entity and its receipt may be an indicator of an impairment of the investment

Directors' Declaration

In the Directors' opinion:

- (a) the financial statements and notes set out on pages 31 to 74 are in accordance with the *Corporations Act 2001*, including:
 - i. complying Australian Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements, and
 - ii. giving a true and fair view of the consolidated entity's financial position as at 30 June 2026 and of its performance for the financial year ended on that date, and
- (b) the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board;
- (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
- (d) the information disclosed in the attached consolidated entity disclosure statement on pages 76 and 77 is true and correct.

The Directors have been given the declarations by the Managing Director and Chief Financial Officer required by section 295A of the *Corporations Act 2001*.

Signed in accordance with a resolution of Directors made pursuant to section 295(5)(a) of the *Corporations Act 2001*.

On behalf of the Directors

INDEPENDENT AUDITOR'S REPORT To the Members of Lycopodium Limited

Report on the Financial Report

Opinion

We have audited the financial report of Lycopodium Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2026, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2026 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional & Ethical Standards Board Limited (the Code) that are relevant to audits of the financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor’s Report

30 June 2026

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Revenue Refer to Note 5 in the financial statements	
The Group has recognised total revenue of \$374,019,000 from contracts with customers. As disclosed in note 1(d), these revenues are recognised over time as performance obligations are fulfilled. The Group's construction, engineering and related services contracts comprise both lump sum and cost plus arrangements. For lump sum arrangements, the Group recognises construction contracts, engineering and related services revenue after assessing all factors relevant to each contract, including specifically the following as applicable: - Determination of the stage of completion and measurement of progress towards performance obligations; - Estimation of total contract revenue and costs, including the estimation of cost contingencies; - Determination of contractual entitlement and assessment of the probability of customer approval of variations and acceptance of claims; and - Estimation of project completion date. For cost plus contracts, the Group recognises construction contracts, engineering and related services revenue after assessing the cost of work provided, together with the appropriate profit margin. This area is a key audit matter due to the number and type of estimation events throughout the contract life, the unique nature of individual contract conditions, leading to complex and judgmental revenue recognition from contracts.	Our audit procedures included: - Assessing the appropriateness of the revenue recognition policies applied by the Group against the criteria in the accounting standards; - Assessing contractual terms with customers and testing project revenues and costs incurred against underlying supporting documents; - For lump sum arrangements: - Assessing management's assumptions in determining the stage of completion, total transaction price and total budgeted cost estimate for construction contracts; - Testing the mathematical accuracy of revenue and profit recognised during the year based on the stage of completion for construction contracts; - Reading customers' and subcontractors' correspondence and discussing the progress of projects with project managers for any potential disputes, variation order claims, known technical issues or significant events that would impact the estimated contract costs; - Agreeing progress billings to invoices issued and receipts; - Assessing completion certificates for completed projects; and - Discussing with project personnel and management the rationale for revisions made to budgeted costs and checking supporting documentation; - For cost plus arrangements: - Agreeing invoices issued to timesheets other relevant documentation and bank receipts; - Reading customers' correspondence for any dispute on invoices issued; and - Assessing the completeness of revenue recognised by comparison to project listings; and - Assessing disclosures in the financial report against the results of our testing and the requirements of the accounting standards.

Independent Auditor’s Report

30 June 2026

Key Audit Matter	How our audit addressed this matter
Impairment of goodwill Refer to Note 14 in the financial statements	
The carrying amount of goodwill at 30 June 2026 is \$12,897,000. Management performs an annual impairment test on the recoverability of goodwill as required by Australian Accounting Standards. We determined this area to be a key audit matter as management's assessment of the recoverable amount, determined on a value in use basis, of the cash generating units (CGUs) to which goodwill is allocated involves judgement about the future cash flow projections, expected revenue growth rates and the discount rate.	Our audit procedures included: - Assessing the Group's accounting policy for compliance with the Australian Accounting Standards; - Assessing management's determination that the goodwill should be allocated to the respective CGUs; - Assessing the valuation methodology used to determine the recoverable amount of the assets in the CGUs; - Challenging the reasonableness of key assumptions used in the value-in-use model (VIU), including the future cash flow projections, expected revenue growth rate and discount rate; - Assessing management's sensitivity analysis over the key assumptions used in the VIU; - Checking the mathematical accuracy of the VIU and reconciling input data to supporting documentation; and - Assessing the adequacy of disclosures in the financial statements.
Business Combination Refer to Note 33 in the financial statements	
On 3 July 2025, Lycopodium Limited completed the acquisition of a 60% controlling interest in SAXUM Ingenieria S.A., SAXUM Consultoria e Engenharia Ltda, SAXUM Engineering Pty Ltd and SAXUM Engineering LLC (collectively, SAXUM), for total cash consideration of \$10,783,000. The transaction was treated as a business combination in accordance with AASB 3 Business Combinations. The purchase price allocation has resulted in the recognition of intangible assets of \$9,212,000, consisting of customer relationships and goodwill. The acquisition was considered a key audit matter because the accounting for the transaction is complex and involves significant judgments. These include the recognition and valuation of the consideration paid and the determination of the fair value of the assets acquired and liabilities assumed.	Our audit procedures included: - Assessing the Group's accounting policy for compliance with the Australian Accounting Standards; - Reading acquisition agreements to obtain an understanding of the transaction and the related accounting considerations; - Assessing management's application of acquisition accounting, including the determination of control and identification of the acquisition date in accordance with AASB 3 Business Combinations; - Assessing the methods, assumptions and data utilised in determining the fair value of assets and liabilities acquired, including evaluating the work performed by management's experts and the competency and objectivity of the expert; - Testing the determination of consideration paid; - Recalculating the goodwill arising on the acquisition; and - Assessing the adequacy of disclosures in the financial statements.

Independent Auditor’s Report

30 June 2026

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2026 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and
- b. the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i. the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii. The consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/media/bwvjcgre/ar1_2024.pdf. This description forms part of our auditor's report.

Independent Auditor’s Report

30 June 2026

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2026.

In our opinion, the Remuneration Report of Lycopodium Limited, for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
